

Owning a Formula 1 car will immediately make you look good but won't automatically make you win podiums unless you perfect your driving skills.

A Precision Rifle is similar, the rifle is just as good as its shooter's skills. Enviromental data gathering, advanced ballistic calculation and wind reading are hard to master. The synergy between the shooter, his rifle, the ammo and the shooting conditions must be absolutely perfect in order to make the shot count.

At Cadex we pride ourselves at manufacturing the absolute best sniper rifle money can buy, but also at being able to train beginner to advanced level shooters. It's not a coincidence that 3 of the 5 longest sniper kills ever recorded have been by Canadian shooters. Latest achievement being done at 3450m (3871 yards). There's no doubt that Canada has some of the best snipers trainers in the world and has perfected this art.

Our team is composed of former military snipers. Our instructors can provide training in Canada or overseas. Their track records vary between Special Forces training, Law Enforcement training up to recreational shooters interested to jump in the PRS/ELR game. Training is offered in English or French at their installations or in the end-users country if needed. We are equipped with the best gear on the market, guns, optics, ammo, steel or electronic targetry, etc.

The dream of hitting a target at extreme range is not far away. If you want to be part of the best you must train with the best. Contact us to be put in contact with our team.

Rob Furlong, former Canadian Sniper and President of Rob Furlong's Marksmanship Academy (RFMA) is looking forward to push your limits.

Rob Furlong

EXTREME RANGE SUPREMACY®

WE ARE PROUD TO HAVE BEEN AWARDED ISO 9001:2015 CERTIFICATION

By achieving this level of certification, we have demonstrated that we consistently meet high quality standards. We would also like to take this opportunity to express our sincere thanks to our customers for their continued commitment and loyalty. We look forward to bringing our business to new heights in the years to come and putting the emphasis of quality assurance and innovation.

CDX-R7 CRBN (CARBON)

After spending years perfecting our multiple tactical and long range platforms, it was time for Cadex to diversify its selection. This is why we added two rifles oriented towards the performance hunter.

The CDX-R7 CRBN rifle is designed with back country hunters in mind. Unlike other manufacturers out there aiming at the absolute lightest materials available, Cadex oriented this rifle towards a perfect balance between weight reduction and no compromise on stability. We equipped the CDX-R7 CRBN model with the best carbon fiber barrel on the market: Bartlein®.

If you are looking for a reliable hunting rifle of a superior craftsmanship, fit and finish than what is offered from mass production gun makers, the CDX-R7 CRBN is what you've been searching for.

See the complete spec sheet P. 137

CDX-R7 SPTR (SPORTER)

After spending years perfecting our multiple tactical and long range platforms, it was time for Cadex to diversify its selection. This is why we added two rifles oriented towards the performance hunter.

Not everyone is a firm believer in carbon fiber barrels. Some people are more conservative and they prefer a traditional stainless steel barrel. For this reason, we designed the CDX-R7 SPTR, a variant equipped with a sporter profiled stainless steel barrel. We added some longitudinal flutes for weight reduction, faster cooling and nicer look. The CDX-R7 SPTR shares the same features as the CDX-R7 CRBN except the barrel type, which makes it more affordable.

If you are looking for a reliable hunting rifle of a superior craftsmanship, fit and finish than what is offered from mass production gun makers, the CDX-R7 SPTR is what you've been searching for.

CDX-SS SEVEN S.T.A.R.S. PRO

The CDX-SS SEVEN S.T.A.R.S. PRO is the latest addition to our growing line-up of products intended for PRS shooting. It is the ultimate rifle for professional shooters aiming for the championship, as much as for persevering amateurs dreaming of podiums at regional matches. The CDX-SS PRO combines the SEVEN S.T.A.R.S. (Sport and Tactical Application Rifle System) action with the STRIKE PRO chassis and legendary Bartlein® 5R single point cut technology barrel. The CDX-SS SEVEN S.T.A.R.S. PRO delivers amazing accuracy right out of the box and is packed with all features needed for positional shooting games where every second matters. Engineered to reliably ignite small and large rifle primers, it is available in most top performing Open and Tactical class short action calibers as well as in 223 Rem for affordable training.

This competition rifle features a 17" long built-in Arca Elite System (AES) rail, 10 M-LOK mounting slots at 3, 6 and 9 o'clock, a barricade stop, the PRO folding tool-free adjustable rear stock, a multi-position adjustable trigger guard, tunable height ambidextrous extended magazine latch and rubberized vertical grip. Popular optional items such as M-LOK weights, right/left thumb rest and full length night vision bridge can be purchased separately.

See all colors available P. 33-34

CDX-SS SEVEN S.T.A.R.S. COVERT

The CDX-SS SEVEN S.T.A.R.S. COVERT is a compact rifle similar to the former CDX-R7 CPS. They both achieve the same purpose, which is concealability for short/medium distances target engagement. This new rifle combines an ultra-short 11" fluted barrel with a Covert Slim Titanium Suppressor small enough to fit within the chassis M-LOK fore-end tube. This fore-end tube is shorter than on other Cadex rifles while still maintaining a fully functional 19" Picatinny top rail for optics and night vision device mounting. It features the folding buttstock of the Strike PRO chassis which allows for fast tool-free stock adjustments. Cadex also offers a version equipped with 16.5" barrels in order to comply with the 26" minimum overall length regulations in many countries.

See all colors available P. 33-34

CDX-R7 SHP SERIES

The CDX-R7 SHP Series are precision rifles designed for shooters who prefer a traditional style stock to chassis systems. These rifles feature Cadex's fully adjustable synthetic stock called the Strike Nuke Evo. The ergonomics of this stock are a great blend between the stability offered by tactical stocks and lightweight hunting stocks. This stock features a built-in aluminum micro-chassis system for improved accuracy. This rifle out of the box will compete with any custom gun.

CDX-MC KRAKEN®

The CDX-MC KRAKEN®, is a multi-caliber rifle using an innovative patented barrel change system. This multi-caliber system features the lowest shift of point of impact (0.1 mil) between takedown and reassembly of the same barrel on the market. Cadex CDX-MC uses a traditional barrel to action threading system while incorporating a special tool designed to unscrew and torque its barrel from the breech side. A single screw secures the chassis detachable base for a fast conversion between short and long action calibers. Maintaining the same P.O.I. is critical at extreme range and the Kraken® surpasses any other multi-caliber system on the market. Add your P.O.I. off sets between each barrels in your ballistics software and you'll never have to reconfirm a zero again!

PATENTED MULTI-CALIBER SYSTEM

FEATURES/SPECIFICATIONS

- Quick caliber change (2 to 3 minutes) with virtually no shift of point of impact (<0.1 mil) on the same barrel. Multi-caliber system with the lowest shift of P.O.I. on the market.
- 416 stainless steel, heavy duty 1.550" custom grade bolt action repeater with integral recoil lug.
- DLC coated 3 lug bolt with 60° short bolt throw. Standard round bolt knob (optional tactical bolt knob sold separately).
- ¼ turn tool-free bolt disassembly for an easy access to the firing pin.
- Interchangeable 20, 30 or 45 MOA full length top rail.
- Selectable single/two stage DX2 EVO trigger.

- Cerakote non-reflective coating.
- Bartlein® 1.300" straight taper fluted match grade barrel with 5R single point cut rifling technology. Unique barrel tenon design with machined grooves to work in conjunction with the Kraken® tooling kit. Easy and unique do-it-yourself rebarreling system.
- Threaded muzzle for muzzle brake installation. Optional ¼-20 threads with suppressor band for use with a Cadex slip-on suppressor.
- Multiple caliber group bolts: Type B (.480"), C (.550") or D (.600").
- Proprietary Kraken® chassis system with folding stock (fixed variant available).

- Easy access to the conversion kit and trigger group by taking down one single captive screw.
- AICS magazine compatible (short and long action).
- MX1 muzzle brake included (optional MX2-ST Tactical muzzle brake sold separately).
- Skeleton folding stock variant available.

TUNDRA STRIKE

The Tundra Strike rifle stock is designed with back country hunters in mind. Unlike other manufacturers out there aiming at the absolute lightest materials available, Cadex oriented this rifle stock towards a perfect balance between weight reduction, rigidity and no compromise on stability.

The Tundra Strike is an affordable rifle stock with the right features at the right place offering unbeatable value for your money. The rifle stock is polymer injected with our special recipe of fibers to produce a lightweight yet extremely stiff rifle stock blank. Within the polymer rifle stock blank are molded aluminum bedding blocks, among which the magazine housing and recoil lug pocket are CNC machined to ensure a perfect alignment. This production process is so precise that no bedding compound is required. No need to be a gunsmith to do it, it is a 2 minute installation process similar to our chassis systems. No bedding job required.

See all colors available P. 33-34

FEATURES/SPECIFICATIONS

- 1 Cadex recoil pad.
- 2 Neoprene cheek pad.
- 3 Front and rear sling stud.
- 4 Rubberized grip insert.

STRIKE PRO

The Strike Pro is the latest addition to our extensive chassis line-up. It is the ultimate chassis for professional PRS shooters as well as for amateurs competing at regional matches. The Strike Pro combines all features needed for positional shooting games where every second matters. This competition chassis features a 17" long built-in Arca Elite System (AES) rail, 10 M-LOK mounting slots at 3, 6 and 9 o'clock, a barricade stop, our PRO folding tool-free adjustable rear stock, a multi-position adjustable trigger guard, tunable height ambidextrous extended magazine latch and rubberized vertical grip. Popular optional items such as M-LOK weights, right/left thumb rest and full length night vision bridge can be purchased separately.

See all colors available P. 33-34

SHORT ACTION

Dimensions: 37.95" x 2.21" x 7.03"
Folded: 28.15" x 4.29" x 7.03"
Weight (±) : 4.15 lbs

Optional buttstock bracket for M-LOK weights (#03127-2076-K1). Weights not included.

DISCLAIMER:

The STRIKE PRO chassis is designed to be compatible with "CENTERFIRE" AICS pattern magazines. Customers looking to use this chassis for "RIMFIRE 22LR" caliber are require to use the dedicated PRO RIMFIRE 22LR MAGAZINE SLEEVE. This caliber is very finicky to feed as rimfire action designs (RimX®, Vudoo®, Bergara®, etc.) and bullet shapes are almost infinite, so fine-tuning may be required to feed reliably.

STRIKE NUKE EVO

The Cadex Strike Nuke Evo micro-chassis system is designed for shooters looking for traditional stock ergonomics while benefiting from the advantages of a chassis system. Gen2 improved design with M-LOK technology and high density fiberglass reinforced polymer. The Strike Nuke Evo stock fits the CDX-SS SEVEN S.T.A.R.S., the CDX-R7 Series actions, most Rem 700 custom action clones and some Tikka® models. The Strike Nuke Evo is Cerakote coated.

FEATURES/SPECIFICATIONS

- 1 Adjustable height recoil pad. Neoprene cheek rest.
- 2 Optional additional spacers to increase the length of pull. (L.O.P.: 13.5"-15.81") and/or 1⁵/₁₆" spacer.
- 3 Tool-free spring loaded up and down cheek piece adjustment. Side to side adjustable.
- 4 Built-in flush cups for QD sling attachment (both sides).
- 5 Optional monopod rail or bean bag riders.
- 6 Optimized grip angle with comfortable thumb rest.
- 7 Oversized trigger guard and magazine release for easy manipulation with gloves.
- 8 Reinforced polymer trigger guard.
- 9 AICS magazine compatible.

- 10 Fits Cadex CDX-R7, CDX-SS SEVEN S.T.A.R.S., Rem 700, custom clones and Tikka T3(x) / T3(x) CTR.
- 11 Optional M-LOK bipod/sling adaptor.
- 12 Optional M-LOK 3.5" aluminum bipod rail.
- 13 Optional M-LOK 3" modular rail or M-LOK flush cup adaptor.
- 14 Ergonomic semi wide fore-end tube with medium and heavy barrel contour inserts.
- 15 Maximum barrel diameter 1.350" straight taper to 1.250" at muzzle end.

DUAL STRIKE

Ultimate chassis system currently in use worldwide by Special Forces units and long range shooters. This is the most stable and ruggedized chassis system on the market. The Dual Strike chassis is built from aluminum billets to avoid any weakness commonly found in cheaper products using aluminum castings. It is the chassis model that holds the record for the longest sniper kill ever reported and the one against all other chassis are measured.

FEATURES/SPECIFICATIONS

- Fully adjustable stock for length of pull, cheek piece and recoil pad height. (L.O.P.: 12.95" - 14.57")
- Monopod rail or optional bean bag riders.
- Reverse folding buttstock offers bolt handle protection and ultra-compact transport.
- Finger-grooved Cadex rubberized grip.
- Oversized trigger guard and magazine release for easy manipulation with gloves.
- 20 MOA full length dual top rail.
- Made from aircraft grade 6061-T6 aluminum billets, anodized and painted with a military grade non-reflective paint.

- Detachable base provides easy trigger access for maintenance and trigger adjustment. This allows the platform to maintain zero. Made of aluminum.
- Optional centre accessory rail kit (2) - Not shown.
- Spare screws.
- Optional centre bipod rail.
- Heavy Duty fore-end tube providing rail placement at 3, 6 and 9 o'clock.
- Maximum barrel diameter 1.800".

LITE STRIKE

The Lite Strike is the refinement of our Dual Strike flagship model. It is the same chassis system but with emphasis on weight reduction. The Lite Strike is exactly 1 pound lighter than its predecessor and features a smaller contour fore-end tube with the same rail capabilities. Its versatility makes it very popular among worldwide special forces units as it suits perfectly the various models of 7.62x51 and 338 Lapua Mag sniper rifles they deploy with.

LITE COMPETITION

The Lite Competition chassis features an open top design to easily adapt most Rem 700 custom clone actions. Perfect for custom actions with integrated top rail, it incorporates a longer mirage mitigation technology fore-end for more bipod placement possibilities. The fore-end tube is compatible with an infinite selection of M-LOK accessories. Perfect for custom rifle builds and PRS competitions, it combines lots of features required by the most demanding shooters in a folding stock configuration.

FIELD TACTICAL

The Field Tactical is a top choice for Law Enforcement units requiring a chassis system with full rail capability at a decent price point. It features a full length 20 MOA top rail and accessory rails at 3, 6 and 9 o'clock. The Field Tactical uses a fixed stock which makes it more budget friendly.

BUTTSTOCK FEATURES

and optional accessories

CADEX ORIGINAL BUTTSTOCK

Pinch tabs to adjust cheek piece height

Reverse folding

Tool-free adjustable cheek rest
Free-play adjustable hinge
Tool-free adjustable butt pad
Tool-free adjustable length of pull

CADEX SKELETON BUTTSTOCK

Tool-free adjustable butt pad
Cleaning rod opening
Tool-free adjustable cheek rest
Fixed stock or folding stock available
Tool-free adjustable length of pull
Monopod rail or optional bean bag rider

Tool-free knob retrofit kit
Part#: 03127-A299-K2

CADEX PRO BUTTSTOCK

The Cadex PRO buttstock is the latest addition to our line-up of tool-free adjustable buttstocks designed for our rifles and chassis systems. It allows the shooter to rapidly adjust the length of pull, cheek riser height and butt plate positioning without any tools. The dimension of the buttstock has been slightly reduced and unnecessary weight has been removed. It also features our battle-proven reverse folding stock mechanism and its free-play adjustable hinge system which uses an off-set cam to prevent loosening that may develop over time. The PRO buttstock is compatible with all Cadex rifles* and chassis equipped with a folding hinge and is offered in two variants depending on the action model.

**Not compatible with CDX-40 SHDW & CDX-50 Tremor®*

Compatible with up to four 1/4" spacers
Tool-free adjustable cheek rest
Free-play adjustable hinge
Reverse folding buttstock
Tool-free adjustable length of pull
Standard monopod rail

LIMITED LIFETIME WARRANTY

At Cadex Defence we take a great sense of pride in the products that we design and produce as well as our customer service. If you are experiencing any problems, we appreciate your understanding with the situation and we will do what is right to help you as we really care for our customers.

We warrant products manufactured by Cadex Inc. to be free of defects in material or workmanship/ manufacturing for **one year** following the initial owner's purchase. Cadex Defence reserves the right to cover under warranty, at its own discretion, its products for the **lifetime** of the product if we feel that it didn't meet our high standards of performance. Cadex reserves the right to use its discretion to warranty its products in special scenarios that have or may present themselves that are not noted in this document.

Cosmetic wear and normal wear items including but not limited to the barrel, extractors, ejectors, and springs are not covered by the warranty and it is the responsibility of the owner to assure the weapon is properly maintained.

Your Cadex Defence product was manufactured to perform properly with the original parts as designed. Altering or modifying parts is dangerous and will void the warranty. It is your responsibility to make sure any parts you install are made for this firearm, installed correctly, and that neither the originals nor the replacement parts are altered or changed. Firearms are complex precision tools with many parts that must operate correctly with other parts in order to maintain proper and safe operation. Putting your firearm together improperly or with incorrect or modified parts can result in a damaged firearm, serious personal injury, or death to you and/or others through malfunction. Always have a qualified armorer or gunsmith work on your Cadex Defence system or other firearms.

A message from the owner

For Cadex, customer satisfaction is very important.

If you experience a problem with one of our dealers or distributors don't wait for the situation to get worse before bringing it to our attention. We firmly believe that with good communication and a little goodwill from both sides we will be able to find a solution to your problem.

Please contact us as soon as possible if you ever encounter any issues with one of our products.

- Serge Dextraze, Cadex CEO

BARREL SELECTION

In order to offer the best extreme range SUB-MOA precision rifles, we selected some of the best barrels on the market. As every barrel design has its strengths and weaknesses, we coupled each specific barrel to a specific application. The ELR shooter is looking for a heavy and extremely stiff bull barrel capable of giving him the extreme range stability that he's looking for. The weekend shooting range enthusiast is looking for the "best bang for your buck" barrel capable of consistently producing tight groups while remaining stable under heat. The back country hunter is looking for a lightweight hunting profiled barrel capable of delivering one perfectly placed shot. If you select the right barrel for the right application you won't be disappointed by any of these top of the line picks.

CADEX BARRELS

After years of making barrels from steel blanks of various barrel makers, we realized that it was not rocket science and once equipped with the best machines, we'd be able to produce the best barrels. A million dollar investment later, we are producing our own barrels in-house using state-of-the-art equipment from Unisig USA. We are not using some old refurbished 1950's gun drills like most other barrel makers; we are talking here about the latest technology in deep hole drilling, producing the tightest tolerances in the industry. Our barrels are drilled in one single operation, stress relieved for stability, contoured, chambered and fluted on CNC machines, lapped and "air gap" tested for concentricity to finish. Our in-house barrels are definitely superior to the barrels that we were sourcing for years. These are guaranteed to produce SUB-MOA groups with quality match grade ammo.

BUTTON RIFLING

BARTLEIN® BARRELS

Bartlein® barrels are known to use the most advanced single point cut rifling process in the industry. Their barrels are top notch and there's a good chance that their performance will outshoot your shooting skills, at least in the early stage of your shooting learning curve. When you buy a Bartlein®, you buy peace of mind. Backed by their great reputation, you know that if something ever goes wrong with your rifle, there's very low chances that it will come from your barrel. We equip most of our rifles with Bartlein® barrels because it's a guarantee of quality.

SINGLE POINT CUT RIFLING

BARTLEIN® CARBON FIBER BARRELS

Bartlein® carbon fiber wrapped barrels are everything you would expect from a Bartlein® barrel. They produce exceptional performance and consistency. Carbon wrapped barrels are about 25% lighter than conventional stainless steel barrels of the same contour. We selected the 5R single point cut rifling technology for easier cleaning and reduced projectile deformation. Oriented strand wrapping technique produces the most consistent barrels on the market. If you are looking for the stability of a bull barrel without the extra weight, the Bartlein® carbon fiber barrel is the perfect choice.

BARRELED ACTIONS

Cadex is known to produce the best chassis systems on the market. Our quality has no match in the industry but we understand that some customers may not have the same budget and needs as the military. Some also prefer the feel and look of a good old fashioned fiberglass stock even if the build process is much more complex than a bolt-on chassis system. Others prefer to inlet their own wood stocks... This is why Cadex is offering barreled actions.

Barreled actions are available on request and since variants are almost infinite, we recommend that you contact our customer service department to find answers to your questions. Our staff are highly knowledgeable and will be able to provide you with professional advice to ensure the success of your new project.

If we offer it as a complete rifle, then it is available as a barreled action.

BARREL SELECTION

- Cadex button rifling straight taper fluted match grade barrels
- Bartlein® single point cut rifling straight taper fluted match grade barrels
- Bartlein® carbon fiber barrels (for the CDX-R7 Hunting Series action only)

RECEIVER

- Machining: CNC
- Material: Stainless 416
- Length: 9.150"
- Diameter: 1.550"
- Thread: 1½" - 18 TPI
- Hardness: 41-43 HRC
- .350" integral recoil lug
- Deep laser engraving markings
- Fits up to 3.850" magazines
- Cerakote finish (see colors P. 33-34)
- #10-32 top rail screws
- Cadex proprietary heavy duty bolt stop and pin
- Unique top rail localization system with integrated recoil groove machined into the action upper section
- Magazine cut out: Short action AICS DSSF or Long action AICS SSSF
- Cadex proprietary footprint
- Compatible with the Cadex DX2 EVO trigger or some Rem Style aftermarket triggers

BOLT

- Machining: CNC
- Material: Stainless 416
- Firing pin: Cadex design with improved locktime
- Cadex heavy duty extractor
- Ejector: Rem style
- Hardness: 43-45 HRC
- Multiple bolt faces available: Type B (.480"), C (.550"), D (.600")
- Shroud: Cadex design with 2 position top safety
- Standard round bolt knob (optional tactical bolt knob sold separately)
- DLC coated spiral fluted 3 lug bolt with 60° bolt throw for rapid cycling
- Cadex design cocking piece
- Easy firing pin assembly replacement
- Same firing pin for all calibers

OPTIMIZED FOR

Kraken® universal firing pin assembly
(Part #: 3850-K016)

BOLT ASSEMBLY KIT

BOLT ASSEMBLY

You lost your bolt, damaged it or simply need one of another caliber? Look no further. We offer replacement bolt assemblies for each actions that we manufacture. It includes the bolt body, operating handle, extractor and ejector kit. Firing pin assemblies are sold separately. Contact Cadex with your serial number in hand and we'll help you out.

*Firing pin sold separately

EJECTOR AND EXTRACTOR KITS

Every rifle requires periodic maintenance to stay in good condition. Some parts wear out and will eventually need to be replaced due to normal wear. Cadex offers replacement extractor or ejector kits for all of its bolts. These kits include the extractor/ejector(s), pins and springs.

Ejector kit

Extractor kit

*Some ejector kit may contain more parts base on action model

NSN#: 1005-20-011-9878
(extractor kit for CDX-40)

BOLT KNOBS

Round knob
(standard)

Tactical knob
(optional)

Hunting knob
(standard hunting models)

- One piece 4140 steel screw-in bolt handle
- 1/4-28 threaded
- Round knob (standard round bolt knob)
- Tactical knob (oversized cross hatch bolt knob)
- Hunting knob (low profile slim round bolt knob)
- Green Loctite® recommended

FITS ALL CADEX RIFLES 2019 +

For older generation rifles, please contact Cadex prior to order any replacement bolt knobs.

Part #: 3850-325LPD

Dimensions:
0.7" x 2.38"
1.78 x 6.05 cm

Weight (±):
0.09 lbs | 41 grams

Material: Steel 4140

GUNSMITHING

ACTION WRENCHES

Action wrenches are mandatory when it comes to removing or installing a barrel on an action. Failure to use the right tool could result in damages to the action. Action wrenches are designed to engage the locking lugs of the action while applying the recommended torque.

ACTION WRENCHES PART#

CDX-SS Short Action
Part#: SS-WRENCH-SA

CDX-R7 Short Action
Part#: R7-WRENCH-SA

CDX-R7 Long Action

TRIMMABLE MAG RELEASE - Part#: 03127-073-K1

Lots of custom actions are trying to replicate the Rem 700 action footprint. However, they often have proprietary features leading to dimensional changes which then require minor modifications such as magazine height adjustability. The trimmable mag release has been manufactured with extra material on purpose so that it could be trimmed to the appropriate length, based on the calculations of a qualified gunsmith. It provides the ability to fine-tune the magazine seating height versus action ramping in order to improve the feeding of certain shapes of ogives.

Fine-tune your magazine height by trimming the mag release

GO/NO-GO GAUGES

Go and No-Go gauges are mandatory when it comes to installing a new barrel on an action. It is imperative to confirm the rifle headspace prior to firing any ammunition in it. Wrong headspace can result in catastrophic failure resulting in an explosion causing serious injuries or death. Only qualified gunsmiths or properly trained shooters should proceed with the installation of a new barrel on a rifle.

BOTTOM METALS

Bottom metals for CDX-30/300/33 series are designed to accommodate AICS pattern magazines.

Compatible magazines (short action):

- 00100-0037
- 00100-0041
- 00100-0006
- 00100-0040
- 00100-0008

Compatible magazines (long action):

- 00100-0001
- 00100-0004
- 00100-0023-CAD
- 00100-0044
- 00100-0003
- 00100-0005
- 00100-0022
- 00100-0020
- 00100-0039
- 00100-0043

(AICS magazine specs P. 65)

Bottom metal for:

CDX-30 action
Part#: BMCDX-DSSF-3055

Mag type: AICS
Model: DSSF 3.055"

Bottom metals for:

CDX-300 & CDX-33 actions
Part#: BMCDX-SSSF-3850

Mag type: AICS
Model: SSSF 3.715" to 3.850" (adjustable)

Pillars and screws included with all bottom metals

CDX-40 BOTTOM METALS

The CDX-40 bottom metal was born from the lack of quality magazines on the market for 375/408 CT. The poor reliability of these mags forced us to create our own mag design to outfit the CDX-40 SHDW. We also developed a bottom metal of the same quality for Stiller® Tac-408 1.45" and 1.60" actions.

Bottom metals for:

CDX-40 action
(375 EnABELR/375 CT/408 CT)
Part#: BMCDX-DSSF-4725

ALSO AVAILABLE FOR:
Stiller® 375/408 (1.45" or 1.60")
Part#: BMSTL14-DSSF-4725
Part#: BMSTL16-DSSF-4725

Mag type: Cadex
Model: DSSF 4.725"

Compatible magazines:

- MAG 4300
- MAG 4309 (see specs P. 66)

CDX-50 BOTTOM METAL

The bottom metal for our CDX-50 Tremor® is built to match the same quality as the rifle itself. Feeding issues and magazine fitting will never be a problem with our Cadex design.

Bottom metal for:

CDX-50 Tremor® action
Part#: BMCDX-SSSF-5790

Mag type: MAG 2949
Model: SSSF 5.790"

Compatible magazine:

- MAG 2949 (see specs P. 66)

(Front mag release)

AICS MAGAZINES

AICS pattern magazines dominate both recreational and military markets because they are affordable, reliable and commonly used by rifle manufacturers. Rather than trying to reinvent the wheel, Cadex teamed up with Accurate-Mag®, a manufacturer offering a wider magazine selection than any other. We offer AICS magazines for more than 25 different calibers and in various lengths and capacity based on your preferred utilization. These magazines are military grade, made of rigid steel with solid anti-corrosion coating. They can be cleaned or lubricated easily by taking down the base plate and the magazine spring may be replaced as needed after years of intensive use.

375 EnABELR DSSF

Part#: MAG4309
(for CDX-40 or Stiller® TAC-408)

Top view

The MAG4309 375 EnABELR magazine has been developed for the Extreme Sniper Strike Operations (ESSO) military program managed by Applied Ballistics. It is a 7 round DSSF magazine capable of reliably feeding ELR type cartridges as long as 4.625".

375/408 CT DSSF

Part#: MAG4300
(for CDX-40 or Stiller® TAC-408)

Top view

The MAG4300 375/408CT magazine has been designed to solve the problems found on the original rifle design using this cartridge. The CDX magazine is reliable, built to tighter tolerances and can accept longer cartridge overall length.

(NSN#: 1005-20-011-9452)

50 BMG SSSF

Part#: MAG2949
(for CDX-50 or PGWDTI® LRT-3)

Top view

The MAG2949 magazine adapts to the Cadex CDX-50 TREMOR® 50 BMG rifle and the PGWDTI® LRT-3 rifle of the same caliber. Its single stack single feed design makes it quite more reliable than the more common DSSF designs. The cartridges are centre fed into the action bore and the magazine spring pushes the round straight up rather than at an angle, avoiding the recurring jam and misfeeds of staggered feed designs.

50 BMG DSDf

Part#: MAG2538D
(for McMillan TAC-50®)

Top view

The MAG2538D is a direct replacement for the original McMillan TAC-50® magazine. We replicate the original design but add the Cadex "magic touch" to it, making them more reliable and economical than the genuine model.

(NSN#: 1005-20-009-5256)

CDX CLEANING KITS

Even the most accurate rifle in the world can produce poor performance if basic maintenance is not performed. It is critical to follow the manufacturer's cleaning procedure in order to maintain optimal performance. For the aforementioned reason, Cadex has put together a few cleaning kits which contains everything you'll need (except chemicals) to perform the maintenance of your rifle. These cleaning kits are complete, affordable and adapted to different applications where cleaning may be required. They are "caliber based" and fit all our rifle platforms*.

*Not designed for single shot 36" and 40" barrel rifles

EACH KIT INCLUDES:

- One-piece cleaning rod
- Multi-section cleaning rod
- Flexible rod with T-Handle
- Bore snake
- Brass brush
- Cotton mop
- Nylon brush
- Chamber brush
- Brass slotted tip
- Brass jag tip
- Bore guide kit
- Lube bottle
- Double-end utility brushes (3x)
- Round cleaning patches (100 units)
- Storage pouch with molle system

BORE GUIDE ONLY

The bore guide master kit is designed to fit Rem 700 and all Cadex rifles.

INCLUDES:

- 2x main tubes (universal & 50 cal)
- 5x action bushings
- 2x rear plastic guides with solvent port
- 4x interchangeable chamber tips
- 2x brass handles for action bushings

BORE GUIDE MASTER KIT - Part#: BG-MASTER

TORQUE LIMITERS FIELD KIT - Part#: 175-00080-K1

Field tooling kit with torque limiters and a variety of driving bits adapted to Cadex rifles and chassis. Comes in a compact molle webbing pouch for easy carry.

*Doesn't include a torque limiter for the Kraken®, SHDW and Tremor® action screws.

CONTAINS:

- Storage pouch & Cadex patch
- "T" Wrench
- 6 in-lb limiter
- 25 in-lb limiter
- 35 in-lb limiter
- 45 in-lb limiter
- 65 in-lb limiter
- 1/2 Socket
- Hex shank to square drive adaptor

UNIVERSAL CHASSIS SCREW KIT - Part#: 03127-K013

The Universal Chassis Screw kit contains an assortment of replacement screws to revamp your chassis. If your chassis has seen better days and you'd like to refresh its hardware then this kit is what you are looking for. Contains enough screws to outfit any Cadex Strike chassis.

CONTAINS:

- 2x Bipod rail screws
- 1x Bipod/Sling stud
- 2x Fore-end tube assembly screws
- 8x Modular rail screws
- 4x Side plate/Boomerang screws (long)
- 6x Side plate/Boomerang screws (short)
- 1x Grip assy washers and screws
- 4x #6-48 top rail screws
- 4x #8-40 top rail screws

TIME-SERT REPAIR KIT - Part#: 03127-K029

You went too fast and cross-threaded a screw? You didn't respect the recommended torque and broke a Time-Sert? This kit is for you.

CONTAINS:

- 1x Time-Sert extractor
- 1x Time-Sert driver
- 6x Short Time-Serts
- 6x Long Time-Serts

*Red Loctite® highly recommended (not included)

You are mechanically inclined and wish to add some Time-Serts where it wasn't designed for? You'll also need:

NOT INCLUDED:

- 1x Drill #21
- 1x Helicoil Tap 10-32

REM STYLE TRIGGERS

CURVED SHOE TRIGGERS

STRAIGHT SHOE TRIGGERS

CONVERSION FROM TWO STAGE TO SINGLE STAGE

Move selector pin to convert from two stage to single stage

The Cadex DX2 EVO trigger is a single/two stage trigger capable of being rapidly converted into a single stage trigger by its operator. Its trigger pull weight can be easily adjusted between 1.5 to 2.5 lbs*. If you haven't figured out yet if you prefer a single stage or two stage trigger, you can't go wrong with the DX2 EVO as it accomplishes both functions.

*Achievable trigger pull weight can be influenced by multiple factors.

FEATURES:

- First stage permanently set between 6 to 8 ounces at the factory.
- Adjustable combined pull weight between 1.5 to 2.5 lbs*.
- Fast access to the trigger pull adjustment screw located at the bottom of the trigger body.
- Adjustable trigger shoe positioning for maximum comfort.
- Military grade trigger design with multiple openings machined into the aluminum body to facilitate dirt cleaning.
- Improved crispness and safety mechanism.
- Hardox® 500 wear-free internals.

CADEX AMMUNITION

BY
ULTIMATE
AMMUNITION™

At Cadex Defence, we understand that a precision rifle can only be as precise as the ammunition that is fired in it. For the same reason that race cars do not run on conventional fuel, performance rifles require performance ammunitions to deliver their best precision and accuracy. For a long time, we've been using off-the-shelf match grade ammunitions with decent to impressive results, but consistency was often lacking from lot-to-lot. Maximum accuracy used to be only reached by hand loaders since they were capable to fine tune their ammunition to their firearms. These days are over with [Ultimate Ammunition™](#).

Ultimate Ammunition™ emerged a few years ago from developing a close working relationship with NATO Special Operations Forces in Europe. Made by shooters for shooters with precision, repeatability and terminal effect in mind, they developed the most accurate and reliable ammunition thanks to their state-of-the-art in-house ballistic test range and 2-mile ELR outdoor test facility.

Cadex Defence decided to team up with Ultimate Ammunition® for the development of customized ammunition specific to our rifles and specs. They selected the best components available for military use. The end result is cartridges that are not only "weapon specific" but also "mission specific" capable of delivering performances exceeding our expectations.

Subsonic, Armor Piercing, APFI, APRE (Nano Explosive), low penetration. The possibilities are infinite.

GEN 2 UNITIZED SCOPE MOUNTS

The Cadex Gen2 unitized scope mounts provide a rock solid optic mounting solution for precision rifles. These are machined from a solid one-piece aluminum billet for maximum rigidity and perfect alignment between the front and rear rings. The Gen2 models use a 6-screw pattern and are modular so that you can interchange front and rear top rings. We offer these mounts in both standard and quick-detachable (QD) variants.

Target distances are getting farther, calibers are more powerful than ever and riflescopes are constantly getting heavier. For these reasons, a top quality scope mount is arguably the most important element of a precision rifle package. If the mount does not hold the scope perfectly aligned with your point of aim, moves even just a hair, you will never hit that long range target.

BASES:

- The standard base is the most worry-free and economical way to mount an optic on a Picatinny top rail.
- The quick-detachable base allows the scope mount to be removed and reinstalled rapidly with minor shift of point of aim. This is a great way to reuse one optic on multiple different rifles.

TOP RINGS:

- The standard top ring is a plain rounded design.
- The bubble level top ring is a must have item for any rifle intended to shoot long distances. The bubble indicator allows the shooter to level his rifle and eliminates possible canting errors.
- The bubble level/cosine indicator top ring is the ultimate combination. It provides the shooter with canting indication and cosine angle measurement in order to apply the right corrections.

STANDARD UNITIZED SCOPE MOUNT

QUICK-DETACH UNITIZED SCOPE MOUNT

SCOPE MOUNTS

CUSTOMIZE YOUR SCOPE MOUNT BY FOLLOWING THESE 3 STEPS

Step 1: Select your base + Step 2: Select your rear top ring + Step 3: Select your front top ring = Final configuration

Example: 1556-B34H + R134 + F134 = 1556-B34H-R134-F134

STEP #1:

(NSN#: 1005-20-010-6981)

(NSN#: 1005-20-011-9610)

Designed to carry your precision rifle. It can be used on its own or put in a hard case for maximum protection.

FEATURES:

- Four accessory pockets (for spare barrels, tooling, etc.)
- Heavy duty main zipper.
- Double stitched reinforced seams.
- Reinforced carrying handle.
- Integrated backpack straps.
- Integrated tool pouch inside.
- Multiple molle loops for attaching camo or additional equipment.
- Two attachment straps to secure the rifle.
- Protective hood and drag tether.
- 5" Velcro surface.
- Embroidered Cadex and Extreme Range Supremacy® logos.

PADDED RIFLE SLING

SPECIFICATIONS

Part#: 3850-K002-TAN or 3850-K002-BLK

Dimensions:
39" x 1.57" x 0.2" | 99.06 x 3.9 x 0.5 cm

Dimensions extended:
63" x 1.57" x 0.2" | 160 x 3.9 x 0.5 cm

Weight (±): 0.4 lbs | 181 grams

Military grade padded rifle sling with QD push button swivels.

FEATURES:

- High grade reinforced materials.
- Fortified stitching.
- Rugged push button sling mechanism.
- Adjustable length, from 39" to 63".
- Padded for increased comfort during extended transportation.
- Perfect for Cadex rifles and chassis.
- Available in tan or black color.

MX1 MUZZLE BRAKES

MX1 MICRO MX1 MINI MX1 STANDARD MX1 .375/.408 MX1 .416/.50

NSN#: 1005-20-011-8167
(for 3850-022-TAN)

The Cadex MX1 muzzle brake is designed to deflect the muzzle blast away from the shooter and his spotter. Gases exit sideways and upwards to reduce felt recoil, dust cloud and improve rifle control. It will soften your 338 Lapua recoil as if it was a 243 Win. Self-timing design using a pinch bolt.

MODEL	PART NUMBER	MAX CALIBER	BARREL THREAD	BORE (IN)	WEIGHT (±)	LENGTH (A)	WIDTH (B)	MAX BARREL DIA

MX2-ST MUZZLE BRAKES

The Cadex MX2-ST Tactical muzzle brake design comes from the need to offer a muzzle brake small enough to fit inside a compact suppressor design. The end of the muzzle brake is tapered to perfectly align the compact titanium suppressor. The MX2-ST Tactical muzzle brake is lightweight while maintaining enough performance to control the muzzle jump on the rifle.

MODEL	PART NUMBER	MAX CALIBER	BARREL THREAD	SUPPRESSOR THREAD	BORE (IN)	WEIGHT (±)	LENGTH (A)	WIDTH (B)	MAX BARREL DIA	OPTIONAL SUPPRESSOR
MX2-ST (SELF-TIMING)	3850-228-ST	.33 Cal	5/8-24	1-24	0.380"	0.095 kg	2.250"	0.995"	0.865"	#6426-A103
	3850-229-ST	.33 Cal	3/4-24	1-24	0.380"	0.078 kg	2.250"	0.995"	0.865"	#6426-A103
	3850-439-ST	.50 Cal	1-14	1 1/2-12	0.562"	0.410 kg	4.750"	1.500"	1.135"	#6426-A026

The Cadex MX2-ST 50BMG Tactical muzzle brake is designed to adapt the compact 50BMG suppressor. The MX2-ST secures on the barrel muzzle threads and its self-timing lock nut stops the rotation in the desired position using the provided wrench. The compact 50BMG suppressor screws on the 4 port design muzzle brake external threads, until it sits firm on the muzzle brake tapered end. This allows for the perfect alignment of the suppressor with the bore and seals the burnt gases.

Optional compact 50BMG suppressor (Part#: 6426-A026)

*Recommended use: CDX-50 Tremor® Tactical 20.6"
*Maximum recoil reduction effectiveness is achieved only when combined with the compact 50BMG suppressor

FALCON BIPODS

with canting

The Falcon Bipods have been designed to provide the ultimate stability. Two models are offered, Picatinny rail or AES (ARCA) mounting variants. It features multiple optional modular quick-change accessories such as spike, claw or ski feet and optional Extension Leg kit to increase the bipod elevation range. A Long Leg Kit is also available for the ELR game where shooters engage targets beyond 2 miles and require lots of bipod elevation without sacrificing the rifle's stability.

FEATURES:

- Fast deployment legs without buttons to push.
- Ultra-tight machining tolerances for maximum stiffness and reduced free play.
- Reversible legs for choice of index or thumb push button operation.
- Easy to operate canting lever. Tilt angle +/- 15.5°.
- Folds/deploys forward, rearward 45° or standard 90°.
- Standard rubber feet, optional claw, spike or ski feet. (P. 82)
- Incredibly stable (width from 11.4" to 13.3").
- Designed to withstand recoil up to 50 BMG.
- Adjustable height from approx. 6.25" to 9" depending on the model.

FALCON LITE BIPODS

with panning and canting

The Falcon Lite bipods utilize a small head design, allowing for a more compact bipod better suited for competitive PRS shooting. It offers the same great canting capability as the bigger Falcon models, in a lighter weight package (only 400-450 grams), without any compromise on its rigidity. It also adds the panning feature, a quick-detach (QD) Picatinny mount, a tensioning lever and 9 position telescopic aluminum tube legs. These bipods have a very wide footprint spread and some of the tightest machining tolerances on the market, making them the most stable lightweight bipods you'll find. The modular locking feet attachments are a must to adapt to any shooting surface.

BIPOD ACCESSORIES

All Cadex Falcon and Falcon Lite Series bipods are modular and share the same feet attachments. Although each of them includes rubber feet as a standard, multiple other optional feet attachments can be added. While rubber feet remain the best overall configuration, some specific sports may benefit from the use of more dedicated feet attachments. Here are our recommendations based on their purpose:

PRS SHOOTING

- Rubber feet
- Spike feet

ELR SHOOTING

- Rubber feet
- Ski feet
- Extension leg kit

F-CLASS & BENCH SHOOTING

- Rubber feet
- Ski feet

PRONE FIELD SHOOTING

- Rubber feet
- Spike feet
- Claw feet
- Ski feet

EXTENSION LEG KIT

Part#: 7431-K108-K2

+2" extra length

SKI FEET

Part#: 7431-K331-K2

RUBBER FEET

Part#: 7431-K105-K2

SPIKE FEET

Part#: 7431-K106-K2

(NSN#: 1005-20-010-6707)

CLAW FEET

Part#: 7431-K104-K2

(NSN#: 1005-20-010-6697)

ELR BIPOD EXTENDER (with built-in AES)

The ELR Bipod Extender with built-in Arca Elite Rail System (AES) has been developed with ELR shooters in mind. It allows the shooter to rapidly modify the position of his bipod by simply sliding the AES clamp all along the bottom of the ELR Bipod Extender. This is especially useful when you are engaging multiple targets requiring completely different elevation angles. It rapidly secures to the bottom of the chassis fore-end tube using either 10-32 or 1/4-28 screws depending on your chassis model. The ELR Bipod Extender shifts the positioning of the bipod mounting point up to 10" further than end of the fore-end tube which results in a huge stability improvement. It is slightly slanted 3/8" higher at the rear so that a short bipod displacement results in a smooth muzzle rise. It is also compatible with bipod Picatinny rails if you own a bipod with Picatinny head attachment or you may choose to buy the optional AES Clamp for the ultimate experience. The AES features a locking system to ensures that the bipod will not slide under heavy recoil.

FEATURES:

- Very fast adjustability of the bipod positioning.
- Shifts the bipod mounting point up to 10" further forward.
- 72 MOA (3/8") slant angle for faster muzzle rise.
- Compatible with standard Arca, AES Clamp or Picatinny rail.

Built-in Arca Elite System (AES)

SPECIFICATIONS

10-32 model - Part#: 03127-A1130-K1

Dimensions:
17.7" x 2" x 1.08" | 44.96 x 5.08 x 2.74 cm
Weight (±): 1.38 lbs | 627 grams
Material: 6061-T6 aluminum
Fits the CDX-MC Kraken, CDX-30/300/33 rifles and chassis using 10-32 time-serfs.

SPECIFICATIONS

1/4-28 model - Part#: 03127-A1129-K1

Dimensions:
17.7" x 2.2" x 1.29" | 44.96 x 5.59 x 3.28 cm
Weight (±): 1.49 lbs | 678 grams
Material: 6061-T6 aluminum
Fits the CDX-40/50 rifles and Dual Strike 50 BMG chassis using 1/4-28 time-serfs.

*Shown with optional Falcon bipod

CDX CARBON TRIPOD

If you have never experienced shooting from a tripod, you have yet to experience the best kept secret in the shooting sports industry. Tripods are not just a PRS shooting trend, they completely revolutionized hunting and long range shooting by providing hunters and shooters with unprecedented versatility. Being able to engage targets without ever being worried about finding a suitable shooting stance is a game changer. The tremendous clamping power of the 55mm ball head is capable of securing rifles up to 55 pounds. Its 360° adjustable ball head with quick-release lever allows for rapid installation and removal of the rifle. The 40mm diameter carbon fiber legs can support a weight of up to 110 pounds, making it the strongest and most rigid portable tripod. The CDX tripod offers the ultimate adjustability, versatility and stability a tripod could offer. Whether for hunting, photography or for reconnaissance operations, the CDX carbon fiber tripod with ball head is a must.

TRIPOD FEATURES:

- Aircraft grade aluminum with hard anodized finish.
- 40mm diameter, 10-layer carbon fiber, 4 segment legs with rapid ¼ turn leg lock system that rise to a maximum height of 78".
- 3 position articulated legs (basic 25°, wide 55° and prone 85° positions).
- 100mm quick-release plate with universal 3/8-16 mounting screw.
- 50 kg / 110 lbs max weight.
- Interchangeable rubber feet and steel spikes included.
- Underbelly counterweight hook.
- Cadex rubberized handle.
- Tan color padded transport bag with Cadex embroidered logos.

BALL HEAD FEATURES:

- Aircraft grade aluminum with hard anodized finish.
- Silky smooth 55mm diameter heavy duty ball head.
- 25 kg / 55 lbs max weight.
- 3 tension lock knobs (rotation, panning/canting).
- Arca-Swiss clamp with quick-release lever and 1/4-20 screw Q-R plate.
- Also compatible with CDX Arca Elite System (AES) - P. 86.
- Tooling included.

SPECIFICATIONS

Part#: CDX-TRIPOD

Minimum height: 8.5" | 21.59 cm

Maximum height: 78" | 198.12 cm

Tripod weight (±): 6.83 lbs | 3098 grams

Ball head weight (±): 2.16 lbs | 980 grams

Total weight (±): 8.99 lbs | 4078 grams

TRIPOD ADAPTORS

SPECIFICATIONS

Arca Tripod Adaptor
Part#: 03127-960-K1

Dimensions:
2.1" x 1.5" x 0.37" | 5.33 x 3.81 x 0.94 cm

Weight (±): 0.07 lbs | 32 grams

Material: 6061-T6 aluminum

SPECIFICATIONS

RC2 Tripod Adaptor
Part#: 03127-962-K1

Dimensions:
2.1" x 1.68" x 0.38" | 5.33 x 4.27 x 0.97 cm

Weight (±): 0.12 lbs | 54 grams

Material: 6061-T6 aluminum

Compatible **ONLY** on chassis models with two mounting points

PRS shooters and snipers share the same challenge in the field. Finding a stable shooting position is often impossible and this is when a ruggedized tripod is a must.

The Cadex Arca & RC2 Adaptors bolt on the lower receiver of most of our rifles and chassis to perfectly balance them on the tripod. When prone isn't an option, this is the way to go.

**It is critical to use a tripod and tripod head capable of supporting the weight of the rifle*

ARCA ELITE SYSTEM (AES)

With over a year of input and development, Cadex is releasing the ARCA Elite System (AES). The AES system is designed for a quick and smooth manipulation that locks up solidly. Using two stainless pins, the AES clamp locks into the precision machined serrations down the center of the ARCA Rail creating a system that will not move, even under the most extreme conditions. This is a huge improvement over the original ARCA design well known to slip under recoil.

Won't fit Dual Strike prior 2014

AES RAIL FEATURES:

- Rail section that attaches to the chassis fore-end tube.
- Precision machined from solid 6061-T6 aluminum to the tightest tolerances in the industry.
- Built to the RRS standard ARCA rail dimensions to ensure all clamping systems work perfectly.
- Locking serrations are flush to the bottom so they will not interfere with clamping on a tripod.
- Deep locking serrations for positive lock up and guaranteed not to slip under recoil and loading.

AES CLAMP FEATURES:

- Adjustable tension on the AES Clamp for a perfect fit.
- Machined from solid 6061-T6 aluminum with stainless steel locking pins.
- The AES clamp can be used on competitors' ARCA rails by removing the stainless steel locking pins.
- Cadex's quick throw lever system for lightning fast manipulation.
- Attachment of bipods through Picatinny/1913 rail or bipod/sling stud interface.
- All parts available separately or sold as a kit.

ACCESSORIES

BEAN BAG RIDER

The Bean Bag Rider was designed to sit securely on your bean bag. The Bean Bag Rider allows the shooter to make minute corrections while ensuring the bean bag won't slip out of position. Adapts to most Cadex rifles or chassis rear stocks.

SPECIFICATIONS

Part#: 03127-269-K1

Dimensions:
3.09" x 1.01" x 0.94" | 7.85 x 2.57 x 2.39 cm

Weight (±) : 0.034 lbs | 15 grams

Material: Fiber reinforced composite
(NSN#: 1005-20-010-6214)

ELR BAG RIDER

The ELR bag rider was specifically designed to work with "F-Class" style rear bags. Adapts to most Cadex rifles or chassis rear stocks.

- Precision machined from 6061-T6 aluminum.
- Recessed center to reduce friction and enhance tracking.
- Slotted attachment point to allow for precise placement.
- Anodized finished.

SPECIFICATIONS

Part#: 03127-950-K1

Dimensions:
4.99" x 1.2" x 0.87"
12.67 x 3.05 x 2.21 cm

Weight (±) : 0.29 lbs | 132 grams

Material: 6061-T6 aluminum

MONOPOD KIT

SPECIFICATIONS

Part#: MONO-KIT

Dimensions:
1.98" x 1.57" x 6.67"
5.03 x 3.99 x 16.94 cm

Weight (±) : 0.73 lbs | 331 grams

Material: Alloy & composite

Why encumber yourself with a heavy bean bag when you can deploy an adjustable height rear rest by the push of a button? The Monopod Kit is the solution for tactical applications where a rear rest is not available. The Monopod Kit installs easily on any Cadex rifle or chassis systems equipped with the Cadex original or skeleton stock.

**Shaded parts to be re-used from customer's rifle or chassis.*

FEATURES:

- Fast to deploy by the simple push of the quick-release button.
- Micro-adjustable height by turning the base clockwise or counter clockwise.
- Replaces the rifle or chassis original butt pad mounting plate.
- Available in black color only.

NEOPRENE CHEEK PAD

Part#: 03127-2070-K1

For CDX-SS SEVEN S.T.A.R.S. PRO/COVERT and Strike Pro chassis.

Part#: 03127-693-N18

For CDX-R7 SHP Series rifles and Strike Nuke Evo chassis.

Part#: 03127-772-K1

For CDX-R7 CRBN, CDX-R7 SPTR rifles and Tundra Strike chassis.

Part#: 03127-693-L18-RH (right) / 03127-693-L18-LH (left)

For any other Cadex rifles or chassis. Right or left.

SLING MOUNTS

BUTTSTOCK MOUNTING

SPECIFICATIONS

Monopod rail with flush cup
Part#: 03127-A173-K1

Dimensions:
2.64" x 0.83" x 0.43"
6.71 x 2.11 x 1.09 cm

Weight (±) : 0.053 lbs | 24 grams

Material: 6061-T6 aluminum

**Replaces the standard monopod rail*

SPECIFICATIONS

Rear sling stud/AES bipod stud
Part#: 03127-A487-K1

Dimensions:
2" x 0.65" x 0.63"
3.89 x 1.58 x 1.91 cm

Weight (±) : 0.024 lbs | 11 grams

Material: 6061-T6 aluminum

**Replaces the standard monopod rail*

FORE-END TUBE MOUNTING

SPECIFICATIONS

Flush cup sling adaptor
Part#: 03127-A174-K1

Dimensions:
1.44" x 0.75" x 0.33"
3.67 x 1.91 x 0.86 cm

Material: 6061-T6 aluminum

SPECIFICATIONS

Small Picatinny sling adaptor
Part#: 1757

Dimensions:
1.53" x 0.62" x 0.75"
3.89 x 1.58 x 1.91 cm

Weight (±) : 0.029 lbs | 13 grams

Material: 6061-T6 aluminum

(NSN#: 1005-20-008-0123)

Cadex Sling Mounts are compatible with most common quick-detachable push buttons and Uncle Mike's style sling swivels on the market. They are versatile mounts that allow shooters to vary the location of the sling attachment on their weapon. These are top of the line sling attachments with tight machining tolerances. Always test for fit and function prior to attaching your rifle as mass-production swivels are sometimes out-of-specs.

FEATURES:

- Fits all Mil Std quick-release sling swivels.
- Attaches to Mil Std M1913 rails.
- Compact size.

SPECIFICATIONS

VTAC L.U.S.A 4 point sling adaptor
Part#: 1398
(NSN: 1005-01-561-0488)

Dimensions:
1.52" x 1.33" x 0.75" | 3.86 x 3.4 x 1.91 cm

Weight (±) : 0.051 lbs | 23 grams

Material: 6061-T6 aluminum

VTAC L.U.S.A. 4 sling attachment methods:

- 1- Passing the sling through the sling loop
- 2- HK hooks and similar quick-release devices
- 3- Push button type quick-release sling swivels
- 4- Locking type sling swivels for sling studs

Flush cup sling adaptors to be used with standard push button swivel attachments

MODULAR ACCESSORIES

3" MODULAR PICATINNY RAIL

Part#: 03127-A078-K1

(NSN#: 1005-20-008-9977)

5" MODULAR PICATINNY RAIL

Part#: 03127-A017-K1

(NSN#: 1005-20-011-9507)

Cadex Modular Accessories are designed to fit on Cadex modular products such as rifles, chassis and shotgun accessories. Most rails also fit Remington® products such as the MSR rifle and RACS chassis. The 3", 3.5", 5" & 9" rails and the 10-32 chassis weights bolt on the Cadex proprietary 10-32 slot mounting pattern. The Centre Bipod Rail and Centre Accessory Rail Kit install on most Cadex rifles and chassis systems. All rails are made of aircraft grade 6061-T6 aluminum and include mounting screws.

9" ALUMINUM BIPOD RAIL

Part#: 03127-K015

COMPATIBLE WITH:

- CDX-MC Kraken®, CDX-R7 CPS & CDX-30/300/33 series rifles (not CDX-40/50). The Dual Strike (not 50 BMG), Life Strike and Field Tactical chassis.
- Also fit non M-LOK generation of CDX-R7 LCP/FCP, CDX-R7 SHP rifles and Life/Field Competition, Strike Nuke chassis. (Prior to 2018 models)

CENTRE ACCESSORY RAIL KIT (2)

Part#: 03127-A083-K2

3.5" ALUMINUM BIPOD RAIL

Part#: 03127-A002-K1

10-32 CHASSIS WEIGHTS (2)

Part#: 03127-921-K2

The 10-32 chassis weights allow shooters to balance their rifle perfectly. Competitive shooters have known for years the benefits of a well balanced gun and additional weight for reducing felt recoil. Weights are made from stainless steel and weigh in at 0.67 lb (300 grams) per pair.

CENTRE BIPOD RAIL

Part#: 03127-A019-K1

*Fits only chassis and rifle models with underbelly mounting points.

M-LOK ACCESSORIES

With the growing popularity of PRS style shooting competitions came a huge selection of aftermarket accessories using the M-LOK technology. With more possible positioning than any other system, the M-LOK system offers a true benefit for the competition shooter.

From now on, all products featuring an M-LOK logo next to their names will feature this technology. The M-LOK system isn't compatible with Cadex's previous screw pattern, rails and accessories so make sure to order M-LOK accessories if your chassis or rifle features the M-LOK technology.

M-LOK STACKABLE CHASSIS WEIGHTS (2)

Part#: 03127-949ML-K2

The M-LOK stackable chassis weights allow shooters to balance their rifle perfectly. Competitive shooters have known for years the benefits of a well balanced gun and additional weight for reducing felt recoil. Weights are made from stainless steel and weigh in at 0.67 lb (300 grams) per pair.

UNIVERSAL RAILS

DO IT YOURSELF INSTALLATION

The following products have been developed to make the installation of rails possible on products that were not initially designed to incorporate rails. For example, adding a night vision flat rail on a Competition chassis fore-end tube that does not feature any mounting points at 12 o'clock. If you have basic mechanical knowledge and know how to operate a drill, these rails are the solution you were looking for.

FEATURES:

- Made of aircraft grade 6061-T6 aluminum.
- Picatinny style rails.
- Includes mounting screws.

UNIVERSAL 9" NVD RAIL - Part#: 03127-012-K1

The Universal 9" NVD rail installs at the 12 o'clock position on the fore-end tube of Cadex's Competition series rifles and chassis. The rail bottom is flat and features a 4 screw hole pattern. You will need to drill and tap the fore-end tube at specific locations in order to install this rail. Once installed, your chassis will be able to accommodate a night vision or thermal imaging device. Mounting screws and a drilling template are included within the kit.

FITS:

- CDX-R7 LCP/FCP rifles
- Lite/Field Competition chassis

Estimated time: 30 min

Degree of difficulty:

Shown on a CDX-R7 LCP rifle

UNIVERSAL 3.5" BIPOD RAIL - Part#: 03127-007-K1

The Universal 3.5" bipod rail features a flat bottom, one #10 size screw hole and one oblong slot that can accommodate multiple bolt patterns. You may install it at various locations on your rifle stock or chassis system to provide you with a Picatinny rail attachment for bipod or other accessories. It includes a variety of mounting screws so that it is very versatile.

Estimated time: 10 min

Degree of difficulty:

FOLDING & STUBBY GRIP

The Cadex Vertical Folding Grip and Stubby Grip provide the operator with a weapon hold that is adaptable to changing tactical conditions.

FEATURES:

- Folding grip folds parallel to the barrel to be more compact and provide multiple hand hold options.
- Fits Mil Std 1913 and Weaver rails.
- Comes in Black, OD Green or Tan.
- Rattle proof self-draining storage compartment for 2 X CR123 (Folding) and 1 x CR123 (Stubby) batteries.
- Ambidextrous design.
- Solid and lightweight.

Folding grip
Part#: 622-000-BLK • 622-000-TAN • 622-000-ODG

Dimensions:
2.81" x 1.67" x 5.62" | 7.16 x 4.26 x 14.28 cm

Dimensions folded:
2.4" x 1.67" x 5.68" | 6.09 x 4.26 x 14.42 cm

Weight (±): 0.29 lbs | 131 grams

Material: Nylon

Stubby grip
Part#: 1979-BLK • 1979-TAN • 1979-ODG

Dimensions:
2.76" x 1.7" x 3.83" | 7.01 x 4.32 x 9.73 cm

Weight (±): 0.21 lbs | 95 grams

Material: Nylon

NSN#:

- 1005-20-002-9378 (for 622-000-ODG)
- 1005-20-009-2174 (for 1979-BLK)
- 1005-20-009-2173 (for 1979-TAN)
- 1005-20-009-2172 (for 1979-ODG)

CARBINE PICATINNY RAILS

The Cadex 4.2" and 6" Carbine Picatinny Rails attach to the handguard of the M4/C8 Carbine or M16/C7 rifle to provide a sturdy Picatinny rail for mounting grips, lasers and other accessories. The rail's base is angled to match the handguard taper.

0.9° ANGLE CORRECTION

4.2" Picatinny rail
Part#: CMR-418-01 (NSN#: 1005-20-002-9377)

Dimensions:
4.2" x 0.83" x 0.56" | 10.66 x 2.11 x 1.43 cm

Weight (±): 0.07 lbs | 32 grams

Material: 6061-T6 aluminum

6" Picatinny rail
Part#: CMR-418-02

Dimensions:
6" x 0.83" x 0.56" | 15.24 x 2.11 x 1.43 cm

Weight (±): 0.09 lbs | 43 grams

Material: 6061-T6 aluminum

FORE-END RAIL

Accuracy International® AW/AICS

SPECIFICATIONS

Accuracy International® fore-end rail
Part#: 1272-A002 (NSN#: 1005-20-011-8296)

Dimensions:
11.81" x 3.34" x 2.72" | 30 x 8.5 x 6.9 cm

Weight (±) : 1.09 lbs | 496 grams

Material: 6061-T6 aluminum

*Previous model

The Cadex fore-end rail provides users of the Accuracy International® rifle or chassis with a world-class mount for in line night vision, lasers and accessories. Designed for the Accuracy International Chassis System (AICS, AW), it provides Mil Std M1913 rails at the 3, 9 and 12 o'clock position.

FEATURES:

- Allows the sniper to install/remove night vision devices without adjusting zero of their primary sniper optic.
- Places the sniper optic and attached night vision on the same plane.
- Side rails provide excellent zero retention of side-mounted laser.
- 0 MOA is standard, but other MOAs are also available on special run.

MP5 FORE-END RAIL

The Cadex MP5 fore-end rail provides the operator with a solid base to accessorize the Heckler & Koch® MP5.

FEATURES:

- Three M1913 mounting rails at 3, 6 and 9 o'clock.
- Provides rigid mounting for lights, lasers and other accessories.
- Easy installation using existing mounting holes.

SPECIFICATIONS

MP5 fore-end rail
Part#: 1165

Dimensions:
3.94" x 2" x 1.78" | 10.03 x 5.1 x 4.52 cm

Weight (±) : 0.27 lbs | 124 grams

Material: 6061-T6 aluminum

M4 EXTENDED FORE-END RAIL

The Cadex M4 extended fore-end rail provides the user with a world-class mount. It is a light and strong rail system. The Cadex rail extension system is produced out of one solid piece of 6061-T6 aluminum and designed for toughness and durability. Its ergonomic design, with multiple rail configurations, allows for great maneuverability and precision improvement. It meets the Mil Std M1913 for rails.

SPECIFICATIONS

Part#: 4093

Dimensions:
6.34" x 2.19" x 2.3"
16.1 x 5.56 x 5.84 cm

Weight (±) :
0.6 lbs | 271 grams

Material:
6061-T6 aluminum

FEATURES:

- Fits on Knight's Armament® model. May fit other AR models with A-frame front sight assembly.
- 2 built-in flush cups.
- One piece design for toughness and durability.
- Multiple end rail position configurations.
- Ergonomic design for maneuverability improvement.
- Allows the operator to extend the handle grip position on the fore-end of the rifle.

TRI-RAIL MOUNT

The Cadex tri-rail mount for the C7/C8, M4/M16 and AR-15 family of small arms provides users with a robust mount for laser pointers, illumination devices and bipods. Mil Std 1913 rails at the 3, 6 and 9 o'clock positions.

SPECIFICATIONS

Part#: 1220

Dimensions:
3.33" x 2.92" x 2.83"
8.47 x 7.42 x 7.21 cm

Weight (±) :
0.37 lbs | 166 grams

Material:
6061-T6 aluminum

FEATURES:

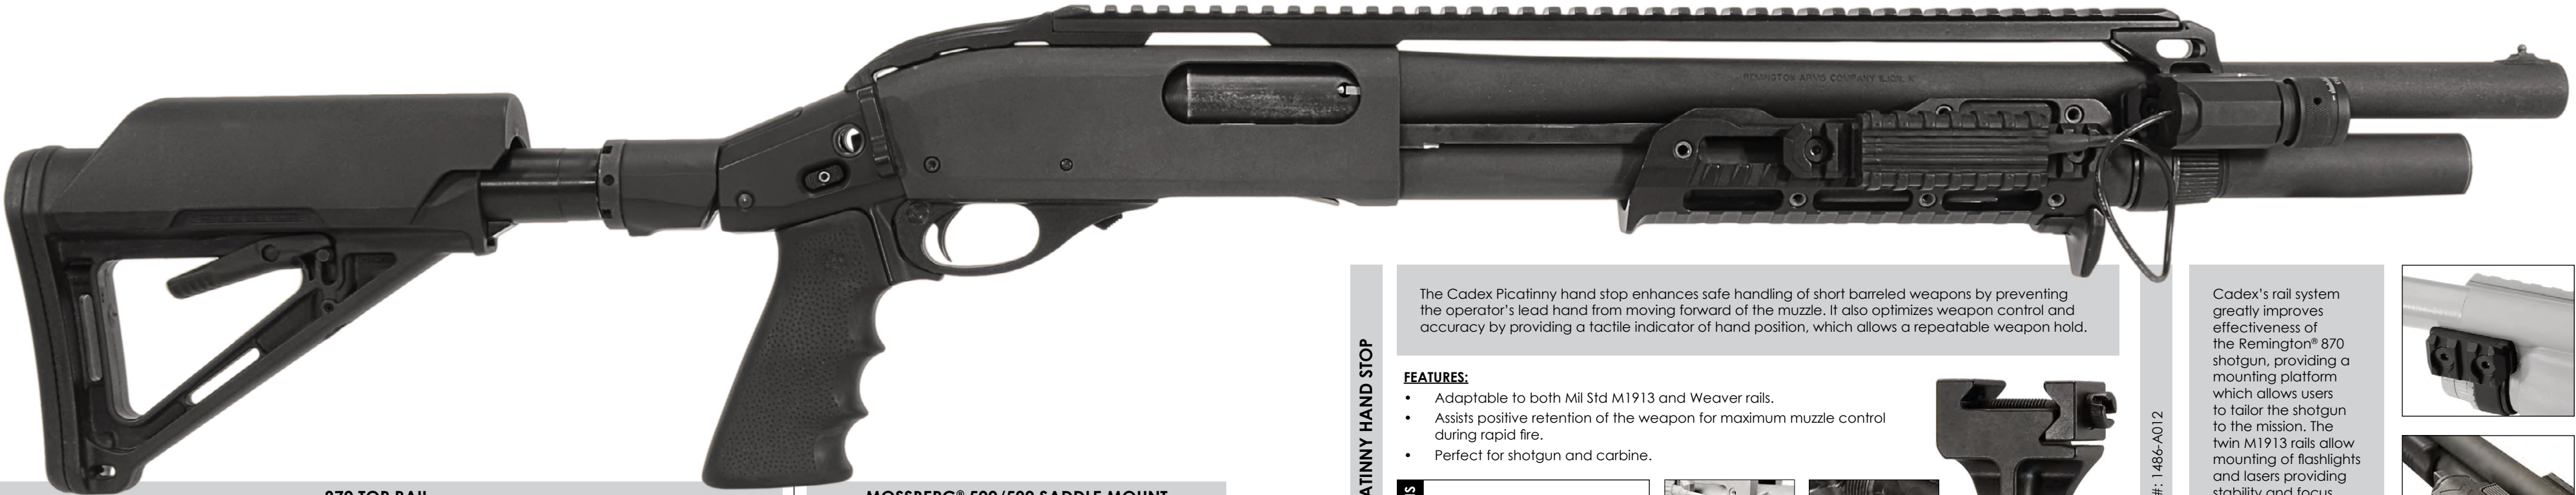

- The rail reduces heat transferred to attached electro-optics.
- Installation requires no modifications to the weapon.
- Removable rails allow the user to reduce the weapon's weight and profile, according to their mission.
- Individually removable rails.

(NSN#: 1005-20-009-6220)

SHOTGUN ACCESSORIES

SHOTGUN ACCESSORIES

870 TOP RAIL

Cadex's rail system takes the Remington® 870 shotgun to a new level of versatility, providing a mounting platform that tailors the shotgun to the mission.

FEATURES:

- The Mil Std M1913 rail allows the mounting of red dot sights to help the shooter engage targets quickly and accurately.
- Different combinations of iron sights and mini red dot sights can be mounted to achieve a co-witnessed installation.
- Two side rails are included for mounting lasers or other accessories such as any of Cadex's Sling Mounts or Flashlight Mounts.

*Does not require any receiver drilling

MOSSBERG® 500/590 SADDLE MOUNT

SPECIFICATIONS

Part#: 6381-TR002
Dimensions: 6.93" x 1.74" x 2.49" | 17.6 x 4.42 x 6.32 cm
Weight (±) : 0.28 lbs | 127 grams
Material: Aluminum & stainless steel

PICATINNY HAND STOP

The Cadex Picatinny hand stop enhances safe handling of short barreled weapons by preventing the operator's lead hand from moving forward of the muzzle. It also optimizes weapon control and accuracy by providing a tactile indicator of hand position, which allows a repeatable weapon hold.

FEATURES:

- Adaptable to both Mil Std M1913 and Weaver rails.
- Assists positive retention of the weapon for maximum muzzle control during rapid fire.
- Perfect for shotgun and carbine.

SPECIFICATIONS

Part#: 1164
Dimensions: 1.5" x 0.62" x 1.74" | 3.81 x 1.57 x 4.42 cm
Weight (±) : 0.07 lbs | 31 grams
Material: 6061-T6 aluminum

LOW PROFILE HAND STOP

This low profile hand stop provides a safe grip on the firearm, increasing accuracy and reloading speed by allowing the shooter to focus on shooting instead of where its hand is placed. Fits on the 870, the 870 MCS and the Mossberg® 500/590 modular fore-end pumps.

SPECIFICATIONS

Part#: 5181-HS
Dimensions: 1.43" x 0.91" x 1.12" | 3.63 x 2.32 x 2.83 cm
Weight (±) : 0.03 lbs | 14 grams
Material: 6061-T6 aluminum

(NSN#: 1005-20-009-9091)

870 MAG CAP DUAL RAIL - Part#: 1486-A012

Cadex's rail system greatly improves effectiveness of the Remington® 870 shotgun, providing a mounting platform which allows users to tailor the shotgun to the mission. The twin M1913 rails allow mounting of flashlights and lasers providing stability and focus when cycling the action of the shotgun.

FEATURES:

- Reuses the original 870 mag cap.
- Twin M1913 Rails.
- Mounts in conjunction with the barrel lug and magazine cap, no modification required.
- Users can install accessories such as Sling Mounts or Flashlight Mount.

(NSN#: 1005-20-009-0565)

Requires the 870 tactical buttstock adaptor to work (Part#: LB-1486)

FORE-END PUMPS

Customize your own Shotgun Modular Fore-End Pump

FEATURES:

- Made out of 6061-T6 aluminum for maximum resistance.
- Multiple rail positions.
- Ergonomic design.
- Allows you to retrofit easily any hand guard for Remington® 870 or Mossberg® 500/590 shotguns.
- Fits from 0 to 7 rails.

The Cadex modular fore-end pump made from 6061-T6 corrosion resistant aluminum offers a world class ergonomic design allowing you to retrofit most Remington® 870 or Mossberg® 500/590 pump handles. 24 threaded inserts allow for multiple rail placements in order to customize your shotgun the way you like it.

CADEX NIGHT VISION DIVISION

Cadex has been involved in electro-optic accessories for over twenty years. Since then, our services toward this market have been expanding. Back in early 2019, Cadex was awarded the contract to supply the Canadian Army Reserves with 300 monocular night vision devices. These systems were assembled in Saint-Jean-sur-Richelieu, Quebec with support from our two OEM suppliers, Photonis® and Theon® Sensors. Cadex is proud to announce the implementation of its Electro-Optic Division and is looking forward to working with our valued customers to expand its capabilities.

NIGHT VISION TUBES

PHOTONIS

4G+ technology is the next stage in innovating the 4G standard and is particularly suitable to meet the ever increasing requirements of Tier 1 special forces operators. Thanks to a new microchannel plate (MCP) technology, resulting in a vastly improved contrast and MTF, the advanced 4G+ provides a strongly improved DRI* range for the highly demanding operator. Only 4G offers ultra-fast Auto-Gating, the smallest halo and unrivaled spectral range from ultraviolet to near infrared. Get the edge over adversaries in the darkest nights, in all conditions and operations. 4G+, the next stage in innovative image intensification technology.

The 4G technology is particularly suited to the very high demands of special forces. Get the best Detection, Recognition and Identification (DRI) range and be the first to see.

FEATURES:

- Best DRI* range
- Ultra-Fast Auto-Gating
- Very small halo
- Spectral range from 350nm to 1100nm

NIGHT VISION

Binoculars and Monoculars

THEON® ARGUS PANOPTES

Advanced Modular Night Vision Binoculars (MNVB)

- Two Mil Spec versions available: Lightweight (LW) and Fail Safe with 100% shut off mechanism (FS)
- Consists of two Argus MNVM's connected with a bridge
- Ambidextrous operations
- Independent flip away and flip-up function (FS version)
- Optional Long Range Laser illuminator
- Complete range of accessories including 3X magnifiers, sacrificial, anti-fogging, laser protection filters, camera adapters, etc.
- Built in interface for Thermal Clip-On attachment (FS version)
- Optional Manual Gain Control (MGC)

THEON® ARGUS

Multi-Purpose Night Vision Monocular (MNVN)

- Two Mil-Spec versions available: Lightweight (LW) and Fail Safe with 100% shut off mechanism (FS)
- Ambidextrous operations
- Collimated line of sight allows for use as binocular
- Optional Long Range Laser illuminator
- Complete range of accessories including, 3X or 5X magnifiers, sacrificial, anti-fogging, day training, laser protection filters, camera adapters and more
- Optional Manual Gain (MGC)

The Argus LW is the proud winner of the Canadian Army Reserves Night Vision Monocular program

THEON® MIKRON-D

Mini Dedicated Night Vision Binocular (Mini-NVB)

- Mil-Spec and Lightweight
- Utilizes 16mm image intensifier tubes which reduces weight and size substantially
- Optional Manual Gain Control (MGC)
- Integrated IR illuminator
- Independent flip away and flip up function
- Smart Electronics

THEON® NYX

Dedicated Night Vision Binocular (NVB)

- Lightest NVB in its category
- Optional Manual Gain (MGC)
- Smart Electronics
- Complete range of accessories including 3X magnifiers, sacrificial, anti-fogging, day training, laser protection filters, camera adapters, etc.

Contact Cadex for more information on Night Vision products

NIGHT VISION & THERMAL

Weapon Sights

THEON® DAMON

In Line Afocal Night Sight (CNVD)

- Two versions available: Medium Range (MR) and Long Range (LR)
- Adds Night Vision capability by clip on in front of day optics
- No need to remove day sight allowing the eye relief, shooting position and user muscle memory to remain the same
- No bore sight required
- Optional Manual Gain Control (MGC)
- Simple and quick single throw lever mounting on Picatinny rails

The Damon is the proud winner of the Canadian Army Forces Night Vision program

THEON® ARTEMIS

Night Vision Stand Alone Weapon Sight (NVWS)

- Three versions available:
 - Short Range with 3X magnification (SR)
 - Medium Range with 4X magnification (MR)
 - Long Range with 6X magnification (LR)
- Ergonomic design, compact and lightweight
- Red illuminated reticle that is field replaceable
- Rugged aluminum housing
- High bore sight stability
- Standard MIL-STD-1913 mount

THEON® THERMIS

Thermal Clip-On Sight (CS)

- Three versions available:
 - Medium Range (MR)
 - Long Range (LR)
 - Extra Long Range (ELR)
- Uncooled IR sensor technology for superior image quality
- Built-in digital compass and inclinometer
- Video capture
- Image capture and storage
- State of the art image enhancement algorithms
- Energy efficient (greater than 10 hours)
- Quick start up (less than 3 seconds)
- Rugged military design

The Thermis is the proud winner of the Canadian Army Forces Thermal imaging program

Contact Cadex for more information on Night Vision products

LOW PROFILE FLIP-UP MOUNT

Now available with optional break-away feature

*Dovetail configuration shown

The Cadex low profile flip-up mount is a ruggedized aluminum NVG mount that combines lightness and low profile design with a maximum range of adjustability.

FEATURES:

- Ergonomic "one touch" height adjustment allows the operator to adjust height with one hand.
- Low profile design follows helmet contour when folded.
- Six position adjustable mounting plate fits numerous facial profiles and helmet mounting systems.
- Locked in stowed position.
- Force overcome in down/deployed position.
- If the NVG is bumped or impacted, the low profile flip-up mount will fold and lock in upright position protecting the NVG and operator.

6 position adjustable mounting plate

Compatible with Ops-Core helmets

Compatible with universal shrouds

*Dovetail configuration shown

Ultra-lightweight and maintenance-free design made out of reinforced nylon to endure desert sand and salt water. Fits a wide variety of helmet designs and is compatible with dovetail or bayonet style NVG interfaces. Cadex offers multiple kits that will adapt to your specific needs.

FEATURES:

- Lightest Flip-Up Mount offered by Cadex.
- Large adjust knobs provide easy adjustments with gloves on.
- Nylon construction allows for silent manipulation of flip up.
- Endures desert sand and salt water.
- Rugged and maintenance free.

UNIVERSAL HELMET STRAP KIT

The Cadex universal helmet strap kit is designed to adapt to helmets that do not feature a built in universal shroud. It secures on the helmet by clamping on the front and rear helmet edges using custom clips and tightens on top using a ratcheting system to ensure a tight fit. The kit includes one metal clip for either MICH or PASGT helmet style (to be specified when ordering).

FEATURES:

- Counter-weights or battery pack* compatible using the rear dovetail.
- Universal design that adapts to various helmet shapes.
- Ultra lightweight.

SPECIFICATIONS
Universal helmet strap kit Part#: 643-93SK-026 (for MICH helmet) Part#: 643-93SK-027 (for PASGT helmet)
Dimensions: 15.14" x 4.5" x 7.72" 38.47 x 11.44 x 19.61 cm
Weight (±) : 0.4 lbs 181 grams
Material: Nylon ST-801 Black

*Counter-weights and battery pack not included

SURVEILLANCE KIT

The Cadex surveillance kit is convenient and easy to operate. Its adjustment system allows the operator to easily fine tune the component's placement. The Surveillance Kit's pivoting camera mount allows the operator to set up for photographic surveillance in a matter of seconds. Sighting scope inversion means your head is not the most visible point in your sighting system.

FEATURES:

- Easy to operate even with gloves.
- No tools required.
- Folds and dismantles for transportation.
- Designed for the Leupold® Mark4 12-40X60 and 20-60X80 spotting scopes. Also available for the Hensoldt® Spotter 45/60.

SPECIFICATIONS

K ADAPTOR FOR RIFLESCOPE

I SURVEILLANCE KIT FRONT SECTION

One quick adjust button for your night optic plus a precise micro adjustment wheel means you can achieve the perfect fit.

P INVERTER KIT TO PICATINNY ADAPTOR

F 3 RAILS INVERTER CAGE

The inverter cage includes a unique spotting scope cradle that ensures the chassis and other mounted accessories are stable and aligned. It also allows the scope to float within the inverter as it is the scope's only point of attachment providing a secure connection between your spotting scope and the surveillance chassis. Can fit up to 5 rails.

E EXTRA SIDE RAIL FOR INVERTER CAGE

Optional rails also available for mounting accessories.

D SPACER FOR INVERTER CAGE

C SURVEILLANCE KIT CENTRE RAIL

Multiple tripod mounts allow you to balance your gear on the tripod base and equally distribute the weight along the surveillance kit.

B SURVEILLANCE KIT EXTENSION

The extension is recommended for mounting a night vision device at the front of the spotting scope.

J SURVEILLANCE KIT BACK SECTION

The camera mount is equipped with a horizontal (left/right) adjustment for a precise fit. With the click of a button, your camera's height can be adjusted to match your spotting scope. If finer adjustment is needed, simply use the micro adjustment wheel and the perfect fit will be achieved.

SURVEILLANCE KIT

and accessories

Cadex offers a wide variety of surveillance kits. Customers may request other mounting options to fill their particular requirements. Specially designed for snipers or surveillance teams, the surveillance kit decreases the amount of weight carried. The surveillance kit is easy to manipulate during extreme cold weather conditions and in darkness.

Mounting Adaptor

The Cadex surveillance kit offers endless possibilities when it comes to mounting accessories. Each year, new electronic devices are hitting the market and they all require their own mounting interface. This is why Cadex is constantly adding new adaptor blocks to its selection of mounting bases.

Step #1 is to select the BASE type that you are planning to use. Step #2, combine it with the appropriate ADAPTOR BLOCK that you require.

BASES (STEP #1)

1683-A077-K1	RC2 tripod adaptor base
1683-A078-K1	Arca adaptor base
1683-A085-K1	Picatinny adaptor base (nut)
1683-A080-K1	QD Picatinny adaptor base
1683-A082-K1	Picatinny adaptor base (thumbscrew)

ADAPTOR BLOCKS (STEP #2)

1683-A067-K1	Adaptor block for Vectronix® PLRF15C
1683-A068-K1	Adaptor block for Safran® JIM LR
1683-A069-K1	Adaptor block for Vectronix® Vector IV
1683-A070-K1	Adaptor block for Vectronix® Vector PLRF25C BT
1683-A071-K1	Adaptor block for Vectronix® Vector 21 Nite
1683-A072-K1	Adaptor block for Swarovski® 60x Spotting scope
1683-A073-K1	Adaptor block for Leupold® 40x Gold Ring Spotting scope
1683-A083-K1	Adaptor block for Canon® Camera
1683-A084-K1	Adaptor block for Coral-CR-C AN/PAS 503

UNIVERSAL BASES

1683-A074-K1	Universal RC2 tripod base
1683-A076-K1	Universal Arca rail base

STEP #1: CHOOSE YOUR BASE

UNIVERSAL BASE

1683-A074-K1
(RC2 type)

1683-A076-K1
(Arca type)

If a proprietary mounting block doesn't exist for your electronic device, you can request a new block to be developed or use one of the following universal bases. These bases feature 3 pressure screws to block the rotation.

SOLO SIGHT MOUNT

The SOLO sight mount dramatically enhances the fighting capabilities of the soldier during day and night conditions. The system is the world's premier military off-the-shelf sight mounting solution. It is designed to enhance the sighting capabilities of NATO-standard weapons such as:

- The M2 .50 cal (12.7mm) Heavy Machine gun
- The 40mm MK19 Grenade Machine gun
- The 40mm Heckler & Koch® Grenade Machine Gun

The SOLO platform integrates up to three sight modules in a wide variety of configurations and provides both day and night sight capabilities.

The system allows for a rapid switch from active to passive target acquisition mode.

During firing, the operator adjusts the range with one hand while the other is free to control the weapon. An illuminated range dial allows the operator to rapidly set the range for a quick engagement, day or night.

More than
10 000
units sold
worldwide

The SOLO mount incorporates a precise mechanical spin drift compensation for 40mm high velocity grenades. The SOLO also has a unique integral mount buffer system, which allows the operator to keep an eye on the sight and also protects the optical modules by absorbing 88% of harsh peak recoil forces.

FEATURES:

- Accommodates up to 4 day/night electro-optic devices.
- Increases lethality of both 40mm and .50 cal platforms.
- 40mm mechanical spin drift compensation.
- 88% absorption of peak recoil forces.
- Illuminated Range Dial.
- Customizable configurations.

SPECIFICATIONS

SOLO sight mount Part#: 724-940
(NSN#: 5342-20-009-3657)

Dimensions:
16.21" x 8.64" x 7.16" | 41.17 x 21.94 x 18.2 cm

Weight (±): 10.59 lbs | 4804 grams

Material: 6061-T6 aluminum, alloy & composite

The SOLO sight mount converts a zone-spreading machine gun into a precise target engagement tool with one round one hit capability at extreme ranges.

Optional rubberized eyepiece for SpecterDR or Leupold® CQBSS. Other models available upon request.

SOLO SIGHT MOUNT

The SOLO sight mount is the backbone of the US Marine Corp's HMGSS (Heavy Machine Gun Sight System). Named the BERM (Ballistic Extended Rail Mount), it has been assigned the M520 designation.

INTERFACES WITH:

M2 Heavy Machine Gun

MK19 GMG

Heckler & Koch® GMG

KOLOS SIGHT MOUNT

The KOLOS sight mount converts a zone-spreading machine gun into a precise target engagement tool with one round one hit capability at extreme ranges.

Optional quick-detach bracket

The KOLOS sight mount significantly enhances day and night fighting capabilities of the M2 .50 caliber machine gun and 40mm GMG. With the KOLOS mount, the gunner is able to rapidly transition from active to passive target acquisition methods to produce maximum effective fire on the target.

Because of the KOLOS mount buffer system, the gunner can keep his eye against the sight eye cup while firing to maintain the sight picture.

FEATURES:

- Low profile buffering of optics systems.
- Accommodates up to 4 day/night electro-optic devices.
- Increases lethality of .50 cal platforms.
- 88% absorption of peak recoil forces.
- Customizable configurations.

SPECIFICATIONS	KOLOS sight mount Part#: 2607
	Dimensions: 12.27" x 5.78" x 2.78" 31.17 x 14.68 x 7.06 cm
	Weight (±): 4.52 lbs 2050 grams
	Material: 6061-T6 aluminum

The quick-detach bracket is a mount interface for the SOLO and KOLOS which provides for "no tool" mounting on both the M2 12.7mm (.50 cal) machine gun and the 40mm GMG (AGL).

FEATURES:

- Allows the user to install and remove the SOLO/KOLOS to/from their weapon with complete return to zero.
- Quick-detach bracket installation does not require any modifications to the weapon.
- Does not interfere with normal function or handling drills.
- All versions of the SOLO already in service can be retrofitted with this mount.

**Some M2 iron sight models may interfere with the Cadex bracket. Please contact us to ensure you order the right model for your M2 receiver.*

RECOIL RAIL FAMILY

60 BSMe Mortar recoil rail

Recoil rail

Absorbs approximately 30% of peak recoil force

SPECIFICATIONS

Recoil rail
Part#: RR-2337 (NSN#: 5340-14-573-7474)

Dimensions:
6.1" x 1.73" x 0.39" | 15.5 x 4.4 x 1.01 cm

Weight (±): 0.41 lbs | 187 grams

Material: 6061-T6 aluminum

SPECIFICATIONS

60mm BSMe Mortar recoil rail
Part#: RR-2337-A007

Dimensions:
6" x 1.75" x 1" | 15.2 x 4.4 x 2.5 cm

Weight (±): 0.4 lbs | 184 grams

Material: 6061-T6 aluminum

WARNING
Not recommended for precision rifle optics or lasers

The Cadex recoil rail provides electro-optic devices with protection from firing shock of hard recoiling weapons, such as the M2 .50 caliber machine gun.

The Cadex recoil rail uses a patented buffer system to absorb approximately 30% of the peak recoil force which would otherwise be transferred to the mounted optic.

FEATURES:

- Absorbs approximately 30% of peak recoil force.
- Returns the electro-optic to its original position after firing.
- Increases life expectancy of electro-optic devices.
- Can be used as bipod rail to improve follow up shots.
- Custom interfaces available for a variety of devices.
- Reduces the blur effect of iron sights when firing in full automatic mode.

CM2 QUICK-RELEASE BRACKET

CM2 quick-release bracket

CM2 quick-release bracket with recoil rail

SPECIFICATIONS

CM2 quick-release bracket
Part#: 2905-A002 (NSN#: 5340-20-009-3656)

Dimensions:
9.06" x 4.13" x 3.94" | 23 x 10.5 x 10 cm

Weight (±): 1.6 lbs | 726 grams

Material: 6005-T6 aluminum

The Cadex CM2 quick-release bracket provides users with a solid optic mount for the M2 12.7mm (.50 cal) heavy machine gun.

FEATURES:

- A 7.5" Mil Std M1913 Picatinny rail for secure optics mounting.
- Quick-detach installation does not require any modification to the weapon.
- Made from a single piece of lightweight 6005-T6 aluminum.
- Tabs are made from a reinforced acetal to improve sliding and locking capabilities.
- Reinforced composite tabs also ensure that they are break-proof and will not wear out over time.
- A stainless steel screw secures the tabs to the quick-release bracket aluminum body.

C6/M240 DUAL RAIL

Top view

Bottom view

Optional 3rd Picatinny rail for bipod mounting

Optional 3rd rail positioning

The Cadex dual rail for the C6, M240 and MAG 58 machine guns provides users with a robust mount for laser pointers and illumination devices.

FEATURES:

- Mil Std M1913 rails at 3 and 9 o'clock positions. Optional positioning at 6 o'clock and 45° angle.
- Reduces heat and vibration transferred to attached electro-optics.
- Provides excellent zero retention of mounted devices.
- Configurable rails.
- Optional 6 o'clock rail positioning for mounting a folding grip.

SPECIFICATIONS

C6/M240 dual rail Part#: 1166-2 (NSN#: 1005-20-011-4535)
Dimensions: 6.14" x 3.52" x 1.89" | 15.5 x 8.95 x 4.81 cm
Weight (±): 0.63 lbs | 285 grams
Material: 6061-T6 aluminum

Thermal insulators

C9/M249 DUAL RAIL

The Cadex dual rail for the C9, M249 and FNH® Minimi light machine guns provides the user with a versatile, lightweight mount for laser pointers and illumination devices.

FEATURES:

- Mil Std M1913 rails at the 3 and 9 o'clock positions.
- Reduces heat and vibration transferred to attached electro-optics.
- Provides excellent zero retention of mounted devices.
- Clamps to the weapon receiver and indexes with the machine gun's front mount bushing.

SPECIFICATIONS

C9/M249 dual rail - Part#: 578
Dimensions: 5.15" x 3.76" x 3.2" | 13.08 x 9.57 x 8.13 cm
Weight (±): 0.53 lbs | 241 grams
Material: 6061-T6 aluminum

C9/M249 TRI-RAIL

The Cadex tri-rail for the C9, M249 and FNH® Minimi LMGs provides the gunner a solid mount for lights, aiming lasers and other weapon accessories.

FEATURES:

- Minimizes heat transfer to the gunner's hand when firing at high rate of fire.
- Provides three Mil Std M1913 rails, at 3, 6 and 9 o'clock.
- The side rail location is optimized to place aiming lasers in the same horizontal plane as the barrel axis.
- Keeps accessories mounted close to the weapon's center of gravity.

SPECIFICATIONS

C9/M249 tri-rail - Part#: 1212
Dimensions: 10.98" x 2.66" x 3.89" | 27.9 x 6.78 x 9.89 cm
Weight (±): 1.06 lbs | 482 grams
Material: 6061-T6 aluminum

Removable heat shield

C6 BUTTSTOCK

The Cadex C6 buttstock provides the operator with a world-class fully adjustable buttstock. Designed for enhanced shooting comfort and more precision in the field. Easily adjustable for the length of pull. This new C6 buttstock is entirely compatible with the existing C6 buttstock which makes it simple to retrofit the existing one. Ergonomic design for easy maneuverability and precision improvement, it extends (2 inch travel) /collapses without any tools.

FEATURES:

- Easy to retrofit existing C6.
- Extends (2 inch travel) /collapses without any tools.
- Ergonomic design for easy maneuverability.
- Made of 6061-T6 aluminum with some components made of fiber reinforced composite.
- Ambidextrous design.
- Up/down cheek piece adjustment.
- Forward/rearward cheek piece adjustment.
- Buttstock sling attachment.
- Rubberized butt pad.

C6 buttstock Part#: 4016
Dimensions: 8.66" x 2.08" x 5.56" | 22 x 5.28 x 14.12 cm
Dimensions extended: 10.66" x 2.08" x 7.76" | 27.08 x 5.28 x 19.71 cm
Weight (±): 2 lbs | 907 grams
Material: 6061-T6 aluminum

C16 COVER LATCH & HANDLE

Cadex cover latch assembly was designed for mission success. Built from 6061-T6 aluminum, delrin and stainless steel.

FEATURES:

- Cover Latch assembly is easily indexed during complex operations both day and night.
- Single handed manual operation.
- Operator friendly for gun drills loading/unloading.
- Installs in minutes on the existing cover. No modifications required.

C16 cover latch Part#: 5119-A001 (NSN#: 1005-20-009-5600)
Dimensions: 10.66" x 3.57" x 3.26" | 27.08 x 9.07 x 8.28 cm
Weight (±): 1.86 lbs | 844 grams
Material: Aluminum / Stainless / Delrin

Extended cocking handle Part#: 5119-A050
Dimensions: 5.23" x 4.6" x 1.44" | 13.28 x 11.68 x 3.66 cm
Weight (±): 0.69 lbs | 313 grams
Material: Aluminum / Stainless / Delrin

*Compatible with HK GMG only

C16 cover latch

Single handed manual operation

EXTENDED COCKING HANDLE

FEATURES:

- Extended cocking handle for use with gloves.

The Cadex Titanium Halligan Bars (24" or 30") are the ultimate breaching tools available in the breacher's arsenal. You can pry, twist, rip or smash doors, frames, drywall and basically any piece of wood that gets in your way. The weight saving is tremendous, as titanium is about half the weight of steel that would normally be used on similar tools, without compromising its wielding power.

HALLIGAN BARS

FEATURES:

- High strength, titanium alloy, one piece integrally cast octagonal shaft and ends.
- 56% lighter than steel.
- Rust free and corrosion resistant to many chemicals and salt water.
- Low conductivity.

SPECIFICATIONS
Titanium Halligan Bar 24" Part#: 580-089
Dimensions: 6.87" x 6.75" x 24" 17.45 x 17.15 x 60.96 cm
Weight (±) : 5.1 lbs 2313 grams
Material: Titanium alloy

SPECIFICATIONS
Titanium Halligan Bar 30" Part#: 580-088
Dimensions: 6.87" x 6.75" x 30" 17.45 x 17.15 x 76.2 cm
Weight (±) : 5.9 lbs 2676 grams
Material: Titanium alloy

FEATURES:

- Its unique design incorporates the functionality of multiple tools, in a simple package. Carry one or carry five?
- Its telescopic design makes it very compact to carry. It can be used collapsed or extended.
- Can be interchanged between the hinge breaker or the optional "break and rake tip".
- CQB tactical breaching multi-tool also available for use in restricted confines or as a secondary team tool.
- Replacement parts available on request:
- Hammer head: #580-048 - Hammer fork: #580-026

SPECIFICATIONS
CQB Part#: 580-A009
Dimensions: 9" x 2.5" x 16.24" 22.86 x 6.35 x 41.27 cm Extended: 22.24" 56.51 cm
Weight (±) : 12.14 lbs 5507 grams
Material: Alloy steel and aluminum

SPECIFICATIONS

CLIMBING HOOKS 4" & 7"

Long Assault Climbing Hook 7"

Short Assault Climbing Hook 4"

The Cadex Short (4") and Long (7") Assault Climbing Hook (SACH) provide the entry teams with an extremely versatile tool for vertical methods of entry in scenarios where it is not practical to use the larger Cadex Extra Long Assault Climbing Hook.

FEATURES:

- Designed for use with an extension pole system to securely fix assault ladders in place on the wide variety of surfaces encountered during operations.
- Can be hand-emplaced.
- Carbide spikes ensure proper hook grip.
- Folds for easy transport and storage.

SPECIFICATIONS

Short Climbing Hook 4" - Part#: SH-1234
(NSN#: 5120-20-011-7359)

Dimensions:
1.97" x 2.35" x 4.67" | 5.02 x 5.97 x 11.87 cm

Static hook capacity: 1300 lbs | 589 670 grams

Weight (±) : 0.78 lbs | 355 grams

Material: Aeronautical Aluminum (Frame)
Carbide (Spike)

Compact size

SPECIFICATIONS

Long Climbing Hook 7" - Part#: LH-1234
(NSN#: 4240-20-009-4802)

Dimensions:
2.03" x 2.35" x 6.9" | 5.16 x 5.97 x 17.53 cm

Static hook capacity: 1300 lbs | 589 670 grams

Weight (±) : 1.1 lbs | 497 grams

Material: Aeronautical Aluminum (Frame)
Carbide (Spike)

CLIMBING HOOKS 14"

The Cadex Extra Long Assault Climbing Hook provides the entry teams with a versatile tool for use with pole systems to securely position assault ladders on irregularly shaped or rounded surfaces. It opens to multiple angles to provide three surfaces, allowing the hook to grab the face, top and rear of differently shaped surfaces.

FEATURES:

- Designed for use with an existing pole system to securely fix assault ladders in place on the wide variety of surfaces encountered during operations.
- Can be employed with or without carabiners.
- Can be hand emplaced.
- The replaceable stainless steel spikes are extremely resistant to wear or breakage.
- Folds for easy transport and storage.
- Ideal for mud walls.

Each hook comes with 3 sets of hardened spikes in the following lengths:

1/2"
(12.7mm)

3/4"
(19.1mm)

1 1/2"
(38.1mm)

SPECIFICATIONS

Extra Long Climbing Hook 14" - Part#: DH-1867
(NSN#: 4240-20-009-4803)

Dimensions:
3.45" x 3.35" x 10.74" | 8.76 x 8.51 x 27.28 cm

Static hook capacity: 1000 lbs | 453 592 grams

Weight (±) : 2.43 lbs | 1100 grams

Material: 7075-T6 aluminum (Frame) Stainless Steel (Spike)

M2 CRADLE MOUNT

The Cadex M2 cradle mount has been developed to provide an easy-to-operate affordable mounting solution for the Browning M2.

- A** Micro adjustable elevation system with 1 mil increment per click.
- B** 2-point balanced mounting system. SOLO Optic enhancement package ready.
- C** Blackened stainless steel machine gun mounting pins.
- D** User-friendly threaded traverse locking mechanism.
- E** Responsive clutch locking elevation mechanism.
- F** Standard military ammo box plate.
- G** Standard M2 pintle adaptor.
- H** M240/M249 adaptor Kit.
- I** M249 ammo box adaptor plate.

***Available on special request for grenade machine gun**

SPECIFICATIONS

H-Part#: 6987-A016
I-Part#: 6987-A015

MAXIMUM ELEVATION RANGE

MG VEHICLE ARM

The Cadex MG vehicle arm attaches to the multi-position MG support using its ACMAT pintle. It allows the mounting of a machine gun at two different locations, either at the end of the arm or at its center section using the NATO pintle. A fast release system is used to lock/unlock the MG pintle instead of the traditional push pin. Two tension adjustment knobs are used to restrain free movement of the machine gun depending on its weight.

The MG vehicle arm is a low profile system that can deploy in a couple of seconds for fast target engagement and can fold rapidly for transport. This is the ultimate MG mount and no other arm offers as much adjustability.

SPECIFICATIONS
MG vehicle arm
Part#: 5573-A120-K1
Dimensions: 15.25" x 5.68" x 8.84" | 38.74 x 14.43 x 22.45 cm
Weight (±) : 18.2 lbs | 8260 grams
Material: Steel / 6061-T6 aluminum

SPECIFICATIONS
Multi-position MG support
Part#: 5573-A111-K1
Dimensions: 4.94" x 3.8" x 38.57" | 12.55 x 9.65 x 97.97 cm
Weight (±) : 15.6 lbs | 7070 grams
Material: Steel

Cadex multi-position MG support allows the mounting of the machine gun vehicle arm to be adjusted rapidly to fit operator's ergonomics. Internal piston controls the rising speed of the machine gun. Allows 12" of adjustment with 1" increments. Features a locking knob and a tension lever.

NOT AVAILABLE IN NORTH AMERICA

SNIPER AERIAL PLATFORM

Sniper Quebec

Contrary to popular belief, shooting with accuracy from an aerial platform is not obscure science chalked up to luck, but rather actual, hard science.

The Cadex Sniper Aerial Platform provides a sniping solution composed of two distinct systems, which can greatly improve the hit rate on a target.

The first device is a PIVOTING GUN SUPPORT mounted on an existent aircraft attachment point allowing the shooter to rest his rifle and be able to move it around as he wishes.

The second device is an ADJUSTABLE CLIP-ON SCOPE RAIL capable of being adjusted "on the fly" based on the speed of the aircraft. By using this device, the shooter does not need to do some reticle hold-off since the firing solution (dope) is built-in the rail. The shooter can now engage the target with the scope reticle aimed at center mass without the need to compensate.

Point of aim, point of impact!

It is one thing to own the solution to every airborne sniper's problem, but it's another to master its use in the field. This is why Sniper Quebec Shooting School has spent years in the field developing and perfecting the expertise. Sniper Quebec can provide extensive training to law Enforcement Agencies looking for a key-in-hand solution. Contact Cadex Defence to get in contact with Mr. Mario Dutil.

For more information on those products,
please contact Cadex's LE Sales Representative

*Fits Bell 412 and Griffon CH-146 helicopters.
May fit other helicopters with 12-JAW fittings and track system.

CADEX RECREATIONAL PRODUCTS

Modifications & Upgrades

Cadex and BRP® (Bombardier Recreational Products) have developed a close relationship that allows Cadex to modify ATV and SSV Off Road Vehicles, Personal Watercrafts and Snowmachines. With robust and high-quality BRP® products at its core, Cadex can tailor to the needs of Military, Special Forces and LE professionals. Ready solutions include the installation of Infrared Lighting, complete light shut off, small arms and machine gun mounts, gun racks, GPS Navigation, backcountry tracks and much more!

GTI 130

MAVERICK X3

OUTLANDER MAX XT 1000R

CADEX Armor, a division of CADEX Inc., is a leading international specialist in the development, design and supply of defensive and inconspicuous armored security vehicles.

These special armored vehicles provide full "peace of mind" mobile protection for government officials, law enforcement personnel, security agencies, as well as private organizations and VIPs concerned about the violent threats of today's hostile urban environment.

Extreme care has been taken in the design and build of each of our armored vehicles to ensure that there is a perfect balance of complete ballistic and blast protection while maintaining a superior on/off road performance.

The Management team of CADEX Armor, consists of industry experts with decades of experience in the automotive and armoring industry. Our understanding of client safety needs and knowledge of new ballistic materials have helped us bring to market what we believe is a truly better and stronger built Armored Security Vehicle.

POLE LADDER - Part#: 2213C

(NSN#: 4240-20-006-7636)

The Cadex pole ladder provides a secure rigid method of entry. A standard kit includes one hook, four pole sections and two half pole sections for over 25 feet of portable climbing power.

FEATURES:

- Modular design allows for custom kits suited to the needs of the mission.
- Pole tensile static load capacity is 2500 lbs.
- Hook has 8 inches of clearance.
- Large anti-slip step with good finger clearance.
- Transport bag included.

Multiple spike lengths available

- 1/2" (12.7mm)
- 1" (25.4mm)
- 1 1/2" (38.1mm)

LADDER REEL - Part#: LR-995

The Cadex ladder reel gives the user the capability to rapidly deploy their cable-type assault ladder. Its small size allows the ladder to be stowed in a compact package for transport to the entry site and also provides the user with a quick recovery system for their ladders.

FEATURES:

- Provides the user tangle-free ladder deployment.
- Prevents cable ladders from becoming kinked, helping extend ladder life.
- Knurling on the handles provides an anti-slip holding surface for positive control when in use.
- Holds up to 15 meters of cable type ladders, such as the Yates® Special Ops ladder.

SPECIFICATIONS

GLASS PUNCH - Part#: 1185

The Cadex glass punch provides users with a rapid means of breaking glass under different tactical conditions. Installs on firearms equipped with Mil Std M1913 rails. The punch's length ensures it will protrude forward of the firearm muzzle.

FEATURES:

- Prevents the need to transition to a hand held punch and side-arm.
- Allows the operator to keep two hands on their firearm.
- Incorporates a spring-loaded hammer mechanism activated by pressing the punch against the glass.
- Perfect for short barrel carbines.

SPECIFICATIONS

Dimensions:
7.27" x 1.68" x 1.03"
18.48 x 4.27 x 2.62 cm
Weight (±):
0.36 lbs | 165 grams
Material: 6061-T6 aluminum

AR10/AR15 RECEIVERS *NOT AVAILABLE IN USA*

Cadex's AR10 and AR15 lower receivers are manufactured to fit Armalite® & Noveske® upper receiver assemblies. They are precision machined from aeronautical grade 7075-T6 aluminum to provide the user with a high quality lower receiver for their AR10 (B series only) or AR15 rifle.

FEATURES:

- Interchangeable with high quality AR10 (B series only) or AR15 parts.
- The magazine well opening is extended with a large bevel that provides a guide for easier magazine insertion.
- Machined ribs at the front of the magazine well for a secure grip.
- Oversized trigger guard.

AR10 receiver (B series only)
Part#: 1570-003

AR15 receiver
Part#: 1570-001
(NSN#: 1005-20-008-8134)

M2 FIRE - Part#: 1626-A001

Cadex's M2 Front Interface Rail Equipment (M2 FIRE) rail system increases the target acquisition and engagement capabilities of the M2 .50 caliber heavy barrel machine gun.

Optional top rail - Part#: 1626-A002

FEATURES:

- Clamps to the barrel support of the M2HB weapon.
- Provides three Picatinny rails at 3, 6 and 9 o'clock.
- Provides a solid mount for heavy weapon spotlights and aiming/illumination lasers.
- Does not affect normal function of the weapon, including barrel changes.
- Machined channels protect device cables.

37MM LAUNCHING CUP - Part#: 4340

Cadex 37mm launching cup is ideal for less lethal and crowd control situations. The launching cup is used in conjunction with a 37mm ballistic cartridge. The Cadex launching cup has a unique venting system which enables the operator to launch a hand deployed chemical grenade at graduated distances of 40, 60 and 100 m.

FEATURES:

- Allows for delivery of payload to extended ranges.
- May be used for denying access, cordons and channeling ops.
- A valuable tool to create distance and opportunity.

*Required thread pitch drawing available on request

SPECIFICATIONS

Dimensions:
2.61" x 1.42" | 6.63 x 3.6 cm
Weight (±): 1.44 lbs | 652 grams
Material: 6061-T6 aluminum

HELMET BRACKETS

The Cadex side mounted helmet brackets provide the helmet wearer with a lightweight mounting platform for Mil Std M1913 equipped accessories such as illumination devices. They are designed to be low profile in order to prevent snagging during activities.

ACH side-mounted helmet bracket Part#: 1835-A010

- Mil Std M1913 style rail.
- Fits ACH style helmets.
- Left and right side assemblies.

Side-mounted helmet bracket Part#: 1835 (NSN#: 1005-20-007-3276)

- Mil Std M1913 style rail.
- Fits numerous military helmets.
- Can be fitted to any model of helmet upon request.

FALCON LITE (C20 SASW) - Part#: 7431-K102

The Falcon Lite bipod is the result of an extensive product development project for a military unit. Their snipers were in need of a light bipod, solid, stable and featuring both a panning and canting capability. At less than 400 grams, the Falcon Lite features a quick-detach (QD) Picatinny mount, a tensioning lever, telescopic aluminum tube legs and modular feet attachments. This bipod has a very wide footprint spread and some of the tightest machining tolerances on the market, making it the most stable lightweight bipod you'll find. The modular locking feet attachments are a must to adapt to any shooting surfaces.

QD Picatinny mount

Includes a fast dismantle adaptor capable of blocking the panning feature while maintaining the canting feature

*Items in red are available on special request. **Dimensions do not include the muzzle brake.
DISCLAIMER: Too many components are involved to accurately predict the final weight of a rifle. It is impossible to confirm the weight of all our rifle models because it varies depending on each caliber.

KRAKEN® CONFIGURATOR

STEP 1

Choose main caliber (refer to table below).

Each complete rifle comes with **one magazine** and **one sniper drag bag** (except military contracts).

STEP 2

- If you want to add any additional caliber(s) you will require:
- Tooling kit:** Only need one per rifle.
 - Barrel(s):** Choose your secondary caliber(s) from the table below.
 - Bolt body(ies):** Select group B, C or D. Only need one per caliber group.
 - Conversion kit(s):** Select group B (DSSF 3.055"), group C (SSSF 3.715"), group C (SSSF 3.850 CIP") or group D (DSSF 3.850" CIP). Only need one per caliber group.
 - Magazine(s):** Not needed if both calibers reuse the same magazine type. Refer to P. 65.

*All calibers reuse the same interchangeable firing pin. You may want an additional firing pin, if you prefer not to swap them from one bolt body to another.

* Even if you do not plan on purchasing a new caliber right away, we still recommend that you purchase the Kraken® Tool Kit to remove your barrel for an easier cleaning process.

STEP 3

- Complete your kit with popular accessories such as:
- Extra muzzle brake
 - ARCA Elite System (AES)
 - Hard case with cut-out foam
 - Bean bag rider
 - Falcon bipod
 - Scope mount
- Please refer to P. 22 for many more optional items.

DISCLAIMER: Too many components are involved to accurately predict the final weight of a rifle. It is impossible to confirm the weight of all our rifle models because it varies depending on each caliber.

MAGAZINE FITMENT vs CHASSIS SYSTEMS

Cadex chassis systems are designed for standard AICS pattern magazines. We optimized our chassis models for Accurate-Mag® magazines as their dimensions replicate best the original AICS design and their tolerances are tighter than most other aftermarket models. Some other companies choose to deviate from the original design, which is out of our control and may lead to some unexpected fitment or feeding issues.

AICS DSSF example

- A- LENGTH: 3.055"
B- WIDTH: 0.970"
C- CATCH HEIGHT: 1.360"

AVERAGE MAGAZINE DIMENSIONS / DEVIATION FROM AICS STD

Manufacturer	Material	Length (in.) / Deviation	Width (in.) / Deviation	Catch height (in.) / Deviation
Accurate-Mag® (recommended model)	Metal	3.054 / -0.001	0.966 / -0.004	1.360 / 0.000
AI®	Metal	3.059 / +0.004	0.967 / -0.003	1.358 / -0.002
Magpul®	Polymer	3.069 / +0.014	0.970 / 0.000	1.370 / +0.010
MDT®	Metal	3.061 / +0.006	0.969 / -0.001	1.358 / -0.002
MDT®	Polymer	3.067 / +0.012	0.991 / +0.021	1.390 / +0.030

*Any major deviation from the aforementioned AICS dimensions may cause magazine fitment and feeding issues. You may use other magazine brands and models at your own risk.

AVERAGE AICS RIMFIRE 22 LR MAGAZINE DIMENSIONS

Manufacturer	Material	Length (in.)	Width (in.)	Catch height (in.)
RimX	Metal	3.055	0.965	1.175-1.295 (adjustable)
Bergara	Polymer	3.055	0.952	1.315
Vudoo	Metal	3.049	0.959	1.224
Vudoo	Polymer	3.028	0.949	1.227

*The Strike PRO chassis is compatible with above magazine when combined with rimfire specific detachable base.

CADEX R&D SOLUTIONS

+ EXPERTISE

Cadex has worked with both conventional military and Special Forces, successfully delivering our products to a broad range of customers worldwide. Cadex works with its customers in a team approach to identify the mission requirements in order to meet their specific needs.

+ INNOVATION

Cadex's design and manufacturing team ensures the customer has access to leading edge technology.

+ DESIGN

When creating the design, Cadex's R&D department works seamlessly with the production department to ensure the manufactured item meets the customer's requirements no matter the complexity.

+ SOLUTION

Cadex's R&D department's initial design is quickly turned into a prototype for customer evaluation. Cadex can use its 3D printing, molding and machining capabilities to produce a broad range of prototypes.

+ MANUFACTURE

Cadex can call upon its in-house capabilities to produce a broad range of products. This includes weapon components, tactical breaching equipment, gun stocks, recoil management systems and precision mounts for electro-optic systems.

+ DELIVERY

Cadex provides the edge needed when you need it most. Our equipment is in service worldwide.

+ SUPPORT

With Cadex every product comes complete with knowledgeable customer support. Our quick and efficient staff is known worldwide for its legendary quality of service as well as its uncompromising discretion.

PROMOTIONAL MATERIALS

CADEX T-SHIRTS - Part#: 8001-(size)

- High quality black t-shirt
- 50% Cotton / 50% Polyester
- Also available for women, 100% Cotton Part#: 8002-(size)

CADEX PROUD SUPPORTER T-SHIRTS - Part#: 8003-(size)

- Perfect for PRS competition
- 100% Polyester
- Also available for women Part#: 8004-(size)

CADEX CAPS - Part#: 8101-OS

Black cap with embroidered "Cadex Defence" logo on the front and "Extreme Range Supremacy" on the back.

STICKERS

Part#: 420-00025-BLK

- High Tack adhesive
- Matte lamination

CHAMBER FLAGS

Part#: 175-00075-FLG

CAR PLATES

Part#: 175-00244-CAR

Embossed aluminum car plate with premium protective glossy coating - 12" x 6"

REUSABLE BAGS

Part#: 420-00030-BLK

- Non-woven fabric (100g)
- Rated max 30 lbs (14 kg)

Dimensions:
13" x 14.5" x 3.5"
33 x 36 x 9 cm

PVC PATCHES

Part#: 420-00026-BLK

Part#: 420-00027-CAM

Part#: 420-00028-BLK
